

## Brown & Brown, Inc. announces quarterly revenues of \$738.5 million, an increase of 15.0%, diluted net income per share of \$0.36 and Diluted Net Income Per Share - Adjusted of \$0.42

January 24, 2022

DAYTONA BEACH, Fla., Jan. 24, 2022 (GLOBE NEWSWIRE) -- Brown & Brown, Inc. (NYSE:BRO) (the "Company") today announced its unaudited financial results for the fourth quarter and full year of 2021.

Revenues for the fourth quarter of 2021 under U.S. generally accepted accounting principles ("GAAP") were \$738.5 million, increasing \$96.4 million, or 15.0%, compared to the fourth quarter of the prior year, with commissions and fees increasing by 15.3% and Organic Revenue<sup>(1)</sup> increasing by 9.0%. Net income was \$101.7 million, increasing \$4.4 million, or 4.5%, and diluted net income per share increased to \$0.36, or 5.9% as compared to the fourth quarter of the prior year. Diluted Net Income Per Share - Adjusted<sup>(2)</sup> increased to \$0.42, or 31.3%, compared to the fourth quarter of the prior year.

Revenues for the twelve months ended December 31, 2021 under GAAP were \$3,051.4 million, increasing \$438.0 million, or 16.8%, as compared to 2020, with commissions and fees increasing by 16.9%, and Organic Revenue increasing by 10.4%. Net income was \$587.1 million, increasing \$106.6 million, or 22.2%, and diluted net income per share for the year increased to \$2.07, or 22.5%, each as compared to 2020. Diluted Net Income Per Share - Adjusted increased to \$2.19 or 31.1% compared to 2020.

J. Powell Brown, president and chief executive officer of the Company, noted, "The fourth quarter was another strong performance for the team and is a capstone for a great 2021. I want to thank all of our outstanding teammates for winning more new business and retaining our great customers."

### Reconciliation of Commissions and Fees to Organic Revenue Three and Twelve Months Ended December 31, 2021 and 2020 (in millions, unaudited)

<b>Organic Revenue</b>	\$ 675.5	\$ 619.8	\$ 2,776.2	\$ 2,515.0
<b>Organic Revenue growth</b>	\$ 55.7		\$ 261.2	
<b>Organic Revenue growth %</b>	9.0%		10.4%	

(1) "Organic Revenue," a non-GAAP measure, is our core commissions and fees less: (i) the core commissions and fees earned for the first 12 months by newly-acquired operations; (ii) divested business (core commissions and fees generated from offices, books of business or niches sold or terminated during the comparable period); and (iii) the period-over-period impact of foreign currency translation, which is calculated by applying current-year foreign exchange rates to the same period in the prior year. The term "core commissions and fees" excludes profit-sharing contingent commissions and guaranteed supplemental commissions, and therefore represents the revenues earned directly from specific insurance policies sold and specific fee-based services rendered. Organic Revenue can be expressed as a dollar amount or a percentage rate when describing Organic Revenue growth. We have historically viewed Organic Revenue and Organic Revenue growth as important indicators when assessing and evaluating our performance on a consolidated basis and for each of our four segments, because it allows us to determine a comparable, but non-GAAP, measurement of revenue growth that is associated with the revenue sources that were a part of our business in both the current and prior year and that are expected to continue in the future.

### Reconciliation of Diluted Net Income Per Share to Diluted Net Income Per Share - Adjusted Three and Twelve Months Ended December 31, 2021 and 2020 (unaudited)

(2) "Diluted Net Income Per Share - Adjusted," a non-GAAP measure, is defined as diluted net income per share, excluding the change in estimated acquisition earn-out payables. We believe Diluted Net Income Per Share - Adjusted provides a meaningful representation of our operating performance and improves the comparability of our results between periods by excluding the impact of the change in estimated acquisition earn-out payables and certain other non-recurring or infrequently occurring items that have a high degree of variability from period-to-period and that we believe are not indicative of the Company's ongoing performance.

Income before income taxes for the fourth quarter of 2021 was \$140.8 million, an increase of \$9.9 million, or 7.6%, and Income Before Income Taxes Margin<sup>(3)</sup> decreased to 19.1% from 20.4% as compared to the fourth quarter of the prior year.

In order to provide a better understanding of our business, we evaluate EBITDAC<sup>(4)</sup> performance. We view EBITDAC and EBITDAC Margin<sup>(5)</sup> as important indicators when assessing and evaluating our performance, as they present more comparable, but non-GAAP, measurements of our operating margins in a meaningful and consistent manner. EBITDAC for the fourth quarter of 2021 was \$215.7 million, an increase of \$41.8 million, or 24.0%, compared to the fourth quarter of the prior year. EBITDAC Margin increased to 29.2% in the fourth quarter of 2021, as compared to 27.1% in the fourth quarter of 2020.

Income before income taxes for twelve months ended December 31, 2021 was \$762.8 million, an increase of \$138.7 million, or 22.2%, compared the prior year. Income Before Income Taxes Margin increased to 25.0% from 23.9%, as compared to the prior year. EBITDAC for the twelve months ended December 31, 2021 was \$1,021.1 million, an increase of \$207.7 million, or 25.5% as compared to the 2020. EBITDAC Margin increased to 33.5% for the twelve months ended December 31, 2021, as compared to 31.1% in 2020.

### Forward-looking statements

This press release may contain certain statements relating to future results which are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created by those laws. These forward-looking statements include those relating to the Company's anticipated financial results for the fourth quarter and full year of 2021 and the potential effects of the COVID-19 pandemic ("COVID-19") on the Company's business, operations, financial performance and prospects. These statements are not historical facts, but instead represent only the Company's current belief regarding future events, many of which, by their nature, are inherently uncertain and outside of the Company's control. It is possible that the Company's actual results, financial condition and achievements may differ, possibly materially, from the anticipated results, financial condition and achievements contemplated by these forward-looking statements. Also, when we use words such as 'anticipate', 'believe', 'estimate', 'expect', 'intend', 'plan', 'probably' or similar expressions, we are making forward-looking statements. These risks and uncertainties include, but are not limited to, COVID-19 and the resulting governmental and societal responses, the severity and duration of COVID-19 (including through any new variant strains of the underlying virus), the effectiveness of and accessibility to vaccines, the pace and rate at which vaccines are administered, actions taken by governmental authorities in response to COVID-19, and the direct and indirect impact of COVID-19 on the U.S. economy, the global economy, and the Company's business, liquidity, customers, insurance carriers and third parties; the Company's determination as it finalizes its financial results for the fourth quarter and full year of 2021 that its financial results differ from the current preliminary unaudited numbers set forth herein; the effects of inflation; the inability to retain or hire qualified employees, as well as the loss of any of our executive officers or other key employees; acquisition-related risks that could negatively affect the success of our growth strategy, including the possibility that we may not be able to successfully identify suitable acquisition candidates, complete acquisitions, integrate acquired businesses into our operations and expand into new markets; a cybersecurity attack or any other interruption in information technology and/or data security and/or outsourcing relationships; the requirement for additional resources and time to adequately respond to dynamics resulting from rapid technological change; the loss of or significant change to any of our insurance company relationships, which could result in additional expense, loss of market share or material decrease in our profit-sharing contingent commissions, guaranteed supplemental commissions or incentive commissions; adverse economic conditions, natural disasters, or regulatory changes in states where we have a concentration of our business; the inability to maintain our culture or a change in management, management philosophy or our business strategy; risks facing us in our Services Segment, including our third-party claims administration operations, that are distinct from those we face in our insurance intermediary operations; the limitations of our system of disclosure and internal controls and procedures in preventing errors or fraud, or in informing management of all material information in a timely manner; the significant control certain existing shareholders have over the Company; risks related to our international operations, which may require more time and expense than our domestic operations to achieve or maintain profitability; changes in data privacy and protection laws and regulations or any failure to comply with such laws and regulations; improper disclosure of confidential information; the potential adverse effect of certain actual or potential claims, regulatory actions or proceedings on our businesses, results of operations, financial condition or liquidity; uncertainty in our business practices and compensation arrangements due to potential changes in regulations; regulatory changes that could reduce our profitability or growth by increasing compliance costs, technology compliance, restricting the products or services we may sell, the markets we

may enter, the methods by which we may sell our products and services, or the prices we may charge for our services and the form of compensation we may accept from our customers, carriers and third-parties; a decrease in demand for liability insurance as a result of tort reform litigation; our failure to comply with any covenants contained in our debt agreements; the possibility that covenants in our debt agreements could prevent us from engaging in certain potentially beneficial activities; changes in the U.S.-based credit markets that might adversely affect our business, results of operations and financial condition; risks associated with the current interest rate environment, and to the extent we use debt to finance our investments, changes in interest rates will affect our cost of capital and net investment income; disintermediation within the insurance industry, including increased competition from insurance companies, technology companies and the financial services industry, as well as the shift away from traditional insurance markets; changes in current U.S. or global economic conditions; effects related to pandemics, epidemics, or outbreaks of infectious diseases; conditions that result in reduced insurer capacity; quarterly and annual variations in our commissions that result from the timing of policy renewals and the net effect of new and lost business production; intangible asset risk, including the possibility that our goodwill may become impaired in the future; other risks and uncertainties as may be detailed from time to time in our public announcements and Securities and Exchange Commission filings; and other factors that the Company may not have currently identified or quantified. All forward-looking statements made herein are made only as of the date of this release, and the Company does not undertake any obligation to publicly update or correct any forward-looking statements to reflect events or circumstances that subsequently occur or of which the Company hereafter becomes aware.

### **Non-GAAP supplemental financial information**

This press release contains references to the following non-GAAP financial measures as defined in Regulation G of SEC rules: Organic Revenue, Diluted Net Income Per Share - Adjusted, EBITDAC and EBITDAC Margin.

Reconciliations of these supplemental non-GAAP financial information to the Company's GAAP information are contained in this earnings release. These measures are not in accordance with, or an alternative to the GAAP information provided in the Company's condensed consolidated financial statements. We present such non-GAAP supplemental financial information because we believe such information is of interest to the investment community and because we believe it provides additional meaningful methods of evaluating certain aspects of the Company's operating performance from period to period on a basis that may not be otherwise apparent on a GAAP basis. We believe these non-GAAP measures improve the comparability of results between periods by excluding the impact of certain items that have a high degree of variability. We believe that Organic Revenue provides a meaningful representation of the Company's operating performance; the Company has historically viewed Organic Revenue and Organic Revenue growth as important indicators when assessing and evaluating the performance on a consolidated basis and for each of its four segments. We believe Diluted Net Income Per Share - Adjusted provides a meaningful representation of our operating performance and improves the comparability of our results between periods by excluding the impact of the change in estimated acquisition earn-out payables and certain other non-recurring or infrequently occurring items that have a high degree of variability from period-to-period and that we believe are not indicative of the Company's ongoing performance. We view EBITDAC and EBITDAC Margin as important indicators when assessing and evaluating our performance, as they present more comparable measurements of our operating margins in a meaningful and consistent manner. As disclosed in our most recent proxy statement, we use Organic Revenue and EBITDAC Margin for incentive compensation determinations for executive officers and other key employees.

Our industry peers may provide similar supplemental non-GAAP information with respect to one or more of these measures, although they may not use the same or comparable terminology and may not make identical adjustments. This supplemental non-GAAP financial information should be considered in addition to, and not in lieu of, the Company's condensed consolidated financial statements.
