Disclosure Regarding Forward-Looking Statements

Brown & Brown, Inc., together with its subsidiaries (collectively, “we,” “Brown & Brown” or the “Company”), makes “forward-looking statements” within the “safe harbor” provision of the Private Securities Litigation Reform Act of 1995, as amended, throughout this report and in the documents we incorporate by reference into this report. You can identify these statements by forward-looking words such as “may,” “will,” “should,” “expect,” “anticipate,” “believe,” “intend,” “estimate,” “plan” and “continue” or similar words. We have based these statements on our current expectations about potential future events. Although we believe the expectations expressed in the forward-looking statements included in this Quarterly Report on Form 10-Q and the reports, statements, information and announcements incorporated by reference into this report are based upon reasonable assumptions within the bounds of our knowledge of our business, a number of factors could cause actual results to differ materially from those expressed in any forward-looking statements, whether oral or written, made by us or on our behalf. Many of these factors have previously been identified in filings or statements made by us or on our behalf. Important factors which could cause our actual results to differ, possibly materially from the forward-looking statements in this report include but are not limited to the following items, in addition to those matters described in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations”:

- Risks with respect to the acquisition of RSC Topco, Inc. (“RSC” or “Accession”), a Delaware corporation (the “Transaction”);
- The possibility that the anticipated benefits, including any anticipated costs saving and strategies, of the Transaction are not realized when expected or at all;
- Risks related to the financing of the Transaction, including that financing the Transaction resulted in an increase in the Company’s indebtedness;
- Risks relating to the financial information related to Accession;
- Risks related to Accession’s business, including underwriting risk in connection with certain captive insurance companies;
- The risk that certain assumptions the Company has made relating to the Transaction prove to be materially inaccurate;
- The inability to hire, retain and develop qualified employees, as well as the loss of any of our executive officers or other key employees;
- A cybersecurity attack or any other interruption in information technology and/or data security that may impact our operations or the operations of third parties that support us;
- Acquisition-related risks that could negatively affect the success of our growth strategy, including the possibility that we may not be able to successfully identify suitable acquisition candidates, complete acquisitions, successfully integrate acquired businesses into our operations and expand into new markets;
- Risks related to our international operations, which may result in additional risks or require more management time and expense than our domestic operations to achieve or maintain profitability;
- The requirement for additional resources and time to adequately respond to dynamics resulting from rapid technological change, including the increasing use of artificial intelligence and robotic processing automation;
- The loss of or significant change to any of our insurance company or intermediary relationships, which could result in loss of capacity to write business, additional expense, loss of market share or material decrease in our commissions;
- The effect of natural disasters on our profit-sharing contingent commissions, insurer capacity or claims expenses within our capitalized captive insurance facilities;
- Adverse economic conditions, political conditions (including the current U.S. federal government shutdown), outbreaks of war, disasters, or regulatory changes in states or countries where we have a concentration of our business;
- The inability to maintain our culture or a significant change in management, management philosophy or our business strategy;
- Fluctuations in our commission revenue as a result of factors outside of our control;
- The effects of significant or sustained inflation or higher interest rates;
- Claims expense resulting from the limited underwriting risk associated with our participation in capitalized captive insurance facilities;
- Risks associated with our automobile and recreational vehicle finance and incentives dealer services (“F&I”) businesses;
- Changes in, or the termination of, certain programs administered by the U.S. federal government from which we derive revenues;
- The limitations of our system of disclosure and internal controls and procedures in preventing errors or fraud, or in informing management of all material information in a timely manner;

- Our reliance on vendors and other third parties to perform key functions of our business operations and provide services to our customers;
- The significant control certain shareholders have;
- Changes in data privacy and protection laws and regulations or any failure to comply with such laws and regulations;
- Improper disclosure of confidential information;
- Our ability to comply with non-U.S. laws, regulations and policies;
- The potential adverse effect of certain actual or potential claims, regulatory actions or proceedings on our businesses, results of operations, financial condition or liquidity;
- Uncertainty in our business practices and compensation arrangements with insurance carriers due to potential changes in regulations;
- Regulatory changes that could reduce our profitability or growth by increasing compliance costs, technology compliance, restricting the products or services we may sell, the markets we may enter, the methods by which we may sell our products and services, or the prices we may charge for our services and the form of compensation we may accept from our customers, carriers and third parties;
- Increasing scrutiny and changing laws and expectations from regulators, investors and customers with respect to our environmental, social and governance practices and disclosure;
- A decrease in demand for liability insurance as a result of tort reform legislation;
- Our failure to comply with any covenants contained in our debt agreements;
- The possibility that covenants in our debt agreements could prevent us from engaging in certain potentially beneficial activities;
- Fluctuations in foreign currency exchange rates;
- A downgrade to our corporate credit rating, the credit ratings of our outstanding debt or other market speculation;
- Changes in the U.S.-based credit markets that might adversely affect our business, results of operations and financial condition;
- Changes in current U.S. or global economic conditions, including an extended slowdown in the markets in which we operate;
- Disintermediation within the insurance industry, including increased competition from insurance companies, technology companies and the financial services industry, as well as the shift away from traditional insurance markets;
- Conditions that result in reduced insurer capacity;
- Quarterly and annual variations in our commissions that result from the timing of policy renewals and the net effect of new and lost business production;
- Intangible asset risk, including the possibility that our goodwill may become impaired in the future;
- Changes in our accounting estimates and assumptions;
- Future pandemics, epidemics or outbreaks of infectious diseases, and the resulting governmental and societal responses;
- Other risks and uncertainties as may be detailed from time to time in our public announcements and Securities and Exchange Commission (“SEC”) filings; and
- Other factors that the Company may not have currently identified or quantified.

Assumptions as to any of the foregoing, and all statements, are not based upon historical fact, but rather reflect our current expectations concerning future results and events. Forward-looking statements that we make or that are made by others on our behalf are based upon a knowledge of our business and the environment in which we operate, but because of the factors listed above, among others, actual results may differ from those in the forward-looking statements. Consequently, these cautionary statements qualify all of the forward-looking statements we make herein. We cannot assure you that the results or developments anticipated by us will be realized, or even if substantially realized, that those results or developments will result in the expected consequences for us or affect us, our business or our operations in the way we expect. We caution readers not to place undue reliance on these forward-looking statements. All forward-looking statements made herein are made only as of the date of this filing, and the Company does not undertake any obligation to publicly update or correct any forward-looking statements to reflect events or circumstances that subsequently occur or of which the Company hereafter becomes aware.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

NOTE 1 Nature of Operations

Brown & Brown, Inc., a Florida corporation, and its subsidiaries (collectively, “Brown & Brown” or the “Company”) is a diversified insurance agency, wholesale brokerage, insurance programs and service organization that markets and sells insurance products and services, primarily in the property, casualty and employee benefits areas. Brown & Brown’s business is divided into two reportable segments. The Retail segment provides a broad range of risk management products and services to commercial, public and quasi-public entities, and to professional and individual customers. These products and services include property and casualty insurance and reinsurance, employee benefits, private client services, captive solutions, consulting services and financial and wealth solutions, as well as non-insurance warranty services and products through the Retail segment’s automobile and recreational vehicle dealer services (“F&I”) businesses. The Specialty Distribution segment consists of our programs, wholesale brokerage and specialty businesses. The programs businesses, which act as managing general underwriters (“MGUs”), provide targeted products and services designated for specific industries, trade groups, governmental entities and market niches, which are delivered to the insured directly, to affinity groups, through wholesale brokers or through a global network of independent agents, including Brown & Brown retail agents. These products and services include specialty property and casualty insurance, financial lines, life and health benefits, reinsurance, travel/accident and health insurance, captive administrative services, warranty services and specialty packages of coverages. The wholesale brokerage businesses underwrite and place excess and surplus commercial and personal lines insurance, typically for specialized or hard-to-place types of risks, primarily through a global network of independent agents and brokers, including Brown & Brown retail agents. The specialty business offers solutions across affinity and administrative services, captives, reinsurance, travel/accident, warranty, and life & health.

The Company primarily operates as an agent or broker not assuming underwriting risks. However, we also operate and/or participate in various ancillary insurance operations, including (1) reinsurance companies and stand-alone captives that assume underwriting risk; (2) series captive insurance companies (“SCICs”); (3) protected cell companies; (4) segregated account companies; (5) a quota share captive and (6) an excess of loss layer captive (collectively, the “Captives”). These respective entities are utilized for the purpose of managing SCICs, facilitating additional underwriting capacity, generating incremental revenues and/or participating in underwriting results. The Company also operates a write-your-own flood insurance carrier, Wright National Flood Insurance Company (“WNFIC”). WNFIC’s underwriting business consists of policies written pursuant to the National Flood Insurance Program (“NFIP”), the program administered by the Federal Emergency Management Agency (“FEMA”) to which premiums and underwriting exposure are ceded, and excess flood policies which are fully reinsured in the private market.

In conjunction with the acquisition of RSC Topco, Inc., (“RSC” or “Accession”) the holding company for Accession Risk Management Group, Inc., in the third quarter of 2025, the Company aligned its business from three to two segments. As a result of the segment reorganization, the Company consolidated its Programs and Wholesale Brokerage segments into a new Specialty Distribution segment. The Company now reports its financial results in the following two reportable segments: Retail and Specialty Distribution. The historical results, discussion and presentation of our business segments as set forth in the accompanying Condensed Consolidated Financial Statements and these Notes reflect the impact of these changes for all periods presented in order to present segment information on a comparable basis. There is no impact on our previously reported consolidated statements of income, balance sheets, statements of cash flows, statements of comprehensive income or statements of shareholders’ equity resulting from these changes. See Note 12 of these Notes to Condensed Consolidated Financial Statements for further information.

NOTE 2 Basis of Financial Reporting

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”) for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of recurring accruals) necessary for a fair presentation have been included. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and the Notes thereto set forth in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024.

The preparation of these financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosures of contingent assets and liabilities, at the date of the Condensed Consolidated Financial Statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Recently Issued Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, “Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40)” which requires disclosure of specific information about certain costs and expenses in the notes to the financial statements. This ASU is effective for annual periods beginning after December 15, 2026 and interim periods beginning after December 15,

2027. Early adoption is permitted. The Company is currently evaluating these new disclosure requirements.

On December 14, 2023, the FASB issued ASU 2023-09, "Improvements to Income Tax Disclosures." This ASU improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. This ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The Company is currently evaluating these new disclosure requirements.

Recently Adopted Accounting Standards

In November 2023, the FASB issued ASU 2023-07, "Improvements to Reportable Segment Disclosures." This ASU requires additional reportable segment disclosures, primarily through enhanced disclosures about significant segment expenses. In addition, the ASU enhances interim disclosure requirements effectively making the current annual requirements a requirement for interim reporting. The Company adopted ASU 2023-07 for fiscal year ending December 31, 2024, and it has been applied retrospectively to the interim disclosures beginning January 1, 2025.

Income Taxes

On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted in the U.S. The OBBBA includes significant provisions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act of 2017, modifications to the international tax framework and the restoration of favorable tax treatment for certain business provisions. The legislation has multiple effective dates, with certain provisions effective in 2025 and others implemented through 2027.

The OBBBA includes several provisions that impact the timing and magnitude of certain tax deductions, including restoring 100% bonus depreciation for qualifying property, increasing the business interest limitation and the immediate expensing of domestic research and development costs. The Company has applied the provisions of OBBBA to its financial results and position for the three months ended September 30, 2025, and will continue to assess potential impacts to its financial position, results of operations and cash flows as additional guidance from the OBBBA is issued.

- (1) Base commissions generally represent a percentage of the premium paid by an insured and are affected by fluctuations in both premium rate levels charged by insurance companies and the insureds' underlying "insurable exposure units," which are units that insurance companies use to measure or express insurance exposed to risk (such as property values, or sales and payroll levels) to determine what premium to charge the insured. Insurance companies establish these premium rates based upon many factors, including loss experience, risk profile and reinsurance rates paid by such insurance companies, none of which we control.
- (2) Fee revenues relate to fees for services other than securing coverage for our customers, including fees negotiated in lieu of commissions, and F&I products and services.
- (3) Other supplemental commissions include additional commissions over base commissions received from insurance carriers based on predetermined growth or production measures. This includes incentive commissions and guaranteed supplemental commissions.
- (4) Profit-sharing contingent commissions are based primarily on underwriting results, but may also reflect considerations for volume, growth and/or retention.
- (5) Earned premium relates to the premiums earned in the Captives.
- (6) Investment income consists primarily of interest on cash and investments.
- (7) Other income consists primarily of other miscellaneous income.
- (8) Fees within Other reflect the elimination of intercompany revenues.

The following table presents the revenues disaggregated by geographic area where our services are being performed:

Contract Assets and Liabilities

The balances of contract assets and contract liabilities arising from contracts with customers as of September 30, 2025 and December 31, 2024 were as follows:

<i>(in millions)</i>	September 30, 2025	December 31, 2024
Contract assets	\$ 881	\$ 575
Contract liabilities	\$ 167	\$ 119

Unbilled receivables (contract assets) arise when the Company recognizes revenue for amounts which have not yet been billed in the Company's systems and are reflected in commissions, fees and other receivables in the Company's Condensed Consolidated Balance Sheets. Businesses acquired in the current year accounted for \$219 million of the increase in contract assets over the balance as of December 31, 2024, with the remaining increase due to normal seasonality and growth in the business.

Deferred revenue (contract liabilities) relates to payments received in advance of performance under the contract before the transfer of a good or service to the customer. Deferred revenue is reflected within accrued expenses and other liabilities for those to be recognized in less than twelve months and in other liabilities for those to be recognized more than twelve months from the date presented in the Company's Condensed Consolidated Balance Sheets. Businesses acquired in the current year accounted for \$50 million of the increase in contract liabilities over the balance as of December 31, 2024.

As of September 30, 2025, deferred revenue totaled \$167 million and consisted of \$124 million and \$42 million classified as short term and long term, respectively. As of December 31, 2024, deferred revenue totaled \$119 million and consisted of \$80 million and \$39 million classified as short term and long term, respectively.

During the nine months ended September 30, 2025 and 2024, the net amount of revenue recognized related to performance obligations satisfied in a previous period was \$24 million and \$17 million, consisting of additional variable consideration received on our incentive and profit-sharing contingent commissions.

Other Assets and Deferred Cost

Incremental cost to obtain - The Company defers certain costs to obtain customer contracts primarily as they relate to commission-based compensation plans in the Retail segment, in which the Company pays an incremental amount of compensation on new business. These incremental costs are deferred and amortized over a 15-year period. The cost to obtain balance within the other assets caption in the Company's Condensed Consolidated Balance Sheets was \$137 million and \$119 million as of September 30, 2025 and December 31, 2024, respectively. For the nine months ended September 30, 2025, the Company deferred \$26 million of incremental cost to obtain customer contracts. The Company recorded expense of \$8 million associated with the incremental cost to obtain customer contracts for the nine months ended September 30, 2025.

Cost to fulfill - The Company defers certain costs to fulfill contracts and recognizes these costs as the associated performance obligations are fulfilled. The cost to fulfill balance within the other current assets caption in the Company's Condensed Consolidated Balance Sheets was \$193 million as of September 30, 2025, which is inclusive of deferrals from businesses acquired in the current year of \$57 million. The cost to fulfill balance was \$145 million as of December 31, 2024. For the nine months ended September 30, 2025, the Company had net expense of \$13 million related to the release of previously deferred contract fulfillment costs associated with performance obligations that were satisfied in the period, net of current year deferrals for costs incurred that related to performance obligations yet to be fulfilled.

NOTE 4 Net Income Per Share

Basic net income per share is computed based on the weighted average number of common shares (including participating securities) issued and outstanding during the period. Diluted net income per share is computed based on the weighted average number of common shares issued and outstanding plus equivalent shares, assuming the issuance of all potentially issuable common shares. The dilutive effect of potentially issuable common shares is computed by application of the treasury stock method. As of September 30, 2025, approximately 4.5 million shares were excluded from the diluted net income per share calculation as they would be anti-dilutive. The following is a reconciliation between basic and diluted weighted average shares outstanding:

NOTE 5 Business Combinations

During the nine months ended September 30, 2025, Brown & Brown acquired all of the stock of 13 insurance intermediaries, purchased assets and assumed certain liabilities of 16 insurance intermediaries, and purchased eight books of business (customer accounts) for a total of 37 acquisitions. Additionally, adjustments were recorded to the purchase price allocation of certain prior acquisitions completed within the last twelve months as permitted by Accounting Standards Codification (“ASC”) Topic 805 — Business Combinations (“ASC 805”).

The recorded purchase price for all acquisitions includes an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in the fair value of earn-out obligations are recorded in the Condensed Consolidated Statements of Income when incurred. The fair value of earn-out obligations is based on the present value of the expected future payments to be made to the sellers of the acquired businesses in accordance with the provisions outlined in the respective purchase agreements.

Based on the acquisition date and the complexity of the underlying valuation work, certain amounts included in the Company’s Condensed Consolidated Financial Statements may be provisional and thus subject to further adjustments within the permitted measurement period, as defined in ASC 805. Management often uses independent third-party valuation specialists to assist in finalizing the fair value of assets acquired and liabilities assumed. Fair value adjustments, if any, are most common to the values established for amortizable intangible assets and earnout liabilities, with the offset to goodwill, net of any income tax effect. Provisional estimates were used to initially record the acquisitions of NBS Insurance Agency, Tim Parkman, Inc. and Accession, including for intangible assets, goodwill, customer contract related balances, tax related balances and other asset and liability accounts.

On August 1, 2025, the Company completed the acquisition of RSC, the holding company for Accession Risk Management Group, Inc., a North American insurance distribution platform is composed of specialty insurance and risk management companies, including Risk Strategies, a retail brokerage firm, and One80 Intermediaries, an insurance wholesaler and program manager. The acquisition was completed pursuant to an Agreement and Plan of Merger (the “Merger Agreement”), by and among RSC, the Company, Encore Merger Sub, Inc., a Delaware corporation and wholly owned subsidiary of the Company (“Merger Sub”) and Kelso RSC (Investor), L.P., a Delaware limited partnership, solely in its capacity as the equityholder representative. The aggregate purchase price totaled \$9,598 million and included consideration paid at closing of \$8,293 million in cash and \$612 million in shares of the Company’s common stock, par value \$0.10 per share. The acquisition was funded using cash raised from our June 2025 follow-on common stock offering and senior notes issuance.

The Merger Agreement provided for escrowed consideration of \$750 million in the form of \$250 million of cash and \$500 million in shares of the Company’s common stock. Both the cash and shares are held in an escrow account. Escrowed shares, which were issued at closing of the acquisition, totaled approximately 4.5 million shares. The number of shares was determined using an agreed upon share price of \$110.57 and \$500 million of consideration, as detailed in the Merger Agreement. The total number of shares will not increase in the future.

Once all claims related to certain indemnification matters described in the Merger Agreement are resolved, the remaining amount in the escrow account will be released to the equityholders. The amount of the cash balance will change over time based on payment of any indemnification obligations of the equityholders associated with the discontinued businesses, as well as dividends paid on the shares and interest income earned on the cash. The Company believes this escrow, plus other available funds, is sufficient to cover any potential costs associated with those specified matters subject to indemnification under the Merger Agreement.

The value of the shares and cash in the escrow account are presented within long-term liabilities (other liabilities), and the restricted cash is presented within other assets in the Company's Condensed Consolidated Balance Sheets. The value of the shares placed in escrow change as the share price of the Company increases or decreases as compared to the value at the start of the applicable reporting period. On August 1, 2025, the closing date of the Accession acquisition, each share was valued at \$92.00 using our opening share price, for a total amount of \$406 million. In accordance with ASC Topic 480 — Distinguishing Liabilities from Equity and ASC Topic 815 — Derivatives and Hedging, periodic share value changes will be recorded as a mark-to-market of the escrow liability in the Company's Condensed Consolidated Statements of Income. This mark-to-market adjustment is non-cash.

As of September 30, 2025, the total balance of the escrow liability was \$676 million, with \$414 million in escrowed shares and \$263 million in cash. The fair value of the shares held in escrow were re-evaluated and measured at fair value on a recurring basis using unobservable inputs (Level 3) as defined in ASC 820 - Fair Value Measurement. The change in fair value of the shares during the three months ended September 30, 2025, was \$8 million.

The following table summarizes the estimated fair values of the aggregate assets and liabilities acquired through the nine months ended September 30, 2025 as of the date of each acquisition and adjustments made during the measurement period of the prior year acquisitions.

(1) The other column represents a summarization of current year acquisitions with total consideration of less than \$50 million per acquisition and adjustments from prior year acquisitions that were made within the permitted measurement period.

(2) The weighted average useful life of purchased customer accounts is 14 years.

For the nine months ended September 30, 2025, adjustments were made within the permitted measurement period, which increased total net assets acquired by \$5 million and decreased goodwill by \$4 million. These measurement-period adjustments have been reflected as current-period adjustments in the nine months ended September 30, 2025 in accordance with the guidance in ASC 805. The measurement-period adjustments had no effect on earnings or cash in the current period.

For the acquisitions completed during 2025, the results of operations since the acquisition dates have been combined with those of the

Company. The total revenues and income before income taxes from acquisitions completed through September 30, 2025, included in the Condensed Consolidated Statement of Income for the nine months ended September 30, 2025 were \$318 million and \$34 million, respectively.

If the Company's 2025 acquisitions had occurred as of the beginning of 2024, the estimated results of operations would be as shown in the following table. These unaudited pro forma results are not necessarily indicative of the actual results of operations that would have occurred had the acquisitions actually been made at the beginning of the respective periods.

Acquisition Earn-Out Payables

As of September 30, 2025 and 2024, the fair values of the estimated acquisition earn-out payables were re-evaluated and measured at fair value on a recurring basis using unobservable inputs (Level 3) as defined in ASC 820 - *Fair Value Measurement*. The resulting additions, payments, and net changes, as well as the interest expense accretion on the estimated acquisition earn-out payables were as follows:

<i>(in millions)</i>	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Balance as of the beginning of the period	\$ 151	\$ 169	\$ 167	\$ 249

Of the \$575 million of estimated acquisition earn-out payables as of September 30, 2025, \$262 million was recorded as accounts payable and \$313 million was recorded as other non-current liabilities. Included within the additions to estimated acquisition earn-out payables are any adjustments to opening balance sheet items within the allowable measurement period, which may therefore differ from previously reported amounts. Certain acquisition agreements include provisions with no maximum potential earn-out amount. The amount recorded for these acquisitions as of September 30, 2025 was \$431 million. The maximum future acquisition contingency payments totaled \$353 million, excluding the uncapped earn-out payables, as of September 30, 2025.

NOTE 6 Goodwill

The changes in the carrying value of goodwill by reportable segment for the nine months ended September 30, 2025 are as follows:

<i>(in millions)</i>	Retail	Specialty Distribution	Total
Balance as of December 31, 2024	\$ 5,436	\$ 2,534	\$ 7,970

Note agreements: On June 11, 2025, the Company entered into an Underwriting Agreement (the “Notes Underwriting Agreement”) with BofA Securities, Inc. and J.P. Morgan Securities LLC, as representatives of the several underwriters named therein (collectively, the “Notes Underwriters”), with respect to the offer and sale by the Company of \$400 million principal amount of its 4.600% Senior Notes due 2026 (the “2026 Notes”), \$500 million principal amount of its 4.700% Senior Notes due 2028 (the “2028 Notes”), \$800 million principal amount of its 4.900% Senior Notes due 2030 (the “2030 Notes”), \$500 million principal amount of its 5.250% Senior Notes due 2032 (the “2032 Notes”), \$1,000 million principal amount of its 5.550% Senior Notes due 2035 (the “2035 Notes”) and \$1,000 million principal amount of its 6.250% Senior Notes due 2055 (the “2055 Notes” and, together with the 2026 Notes, the 2028 Notes, the 2030 Notes, the 2032 Notes, and the 2035 Notes, the “Notes”). The Notes Underwriting Agreement contains customary representations, warranties and covenants of the Company, conditions to closing, termination provisions and other terms and conditions customary in agreements of this type. The Notes Underwriting Agreement also contains customary indemnification and contribution rights and obligations of the Company and the Notes Underwriters. The Company used the net proceeds of the offering of the Notes, together with the proceeds from the offering of shares of common stock and cash on hand, to fund the cash consideration payable under the Merger Agreement, and to pay fees and expenses associated with the foregoing. As of September 30, 2025, the aggregate outstanding balance of these notes was \$4,200 million exclusive of the associated discount balance.

The Company maintains notes from other issuances aggregating to a total outstanding debt balance of \$2,850 million exclusive of the associated discount balance as of September 30, 2025 and December 31, 2024.

Credit agreements: On March 31, 2025, the Company repaid the outstanding balance on the 3-year term loan facility of \$150 million.

The Company has credit agreements that include term loans and a Revolving Credit Facility of \$800 million, all having similar terms and covenants. The outstanding balance on the term loans was \$550 million and \$756 million as of September 30, 2025 and December 31, 2024, respectively. There was an outstanding balance of \$200 million on the Revolving Credit Facility as of September 30, 2025, and \$250 million outstanding as of December 31, 2024.

The Company is required to maintain certain financial ratios and comply with certain other covenants. The Company was in compliance with all such covenants as of September 30, 2025 and December 31, 2024.

At September 30, 2025, the one month term SOFR Rate for the term loan due October 2026 and the term loan due March 2027 was 4.263%. The one month term SOFR Rate on the Revolving Credit Facility due October 2026 was 4.280% as of September 30, 2025. These SOFR rates are inclusive of a 0.100% credit-spread adjustment per the terms of the relevant agreements.

Fair value information about financial instruments not measured at fair value

The following table presents liabilities that are not measured at fair value on a recurring basis:

<i>(in millions)</i>	September 30, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Liabilities:				
Current portion of long-term debt	\$ —	\$ —	\$ —	\$ —
Long-term debt	\$ 7,031	\$ 7,022	\$ 2,839	\$ 2,602

The carrying value of the Company's borrowings under various credit agreements approximates its fair value due to the variable interest rate based upon adjusted SOFR. The fair values above, which exclude accrued interest, are not necessarily indicative of the amounts that the Company would realize upon disposition, nor do they indicate the Company's intent or ability to dispose of the financial instruments. The fair values of our respective senior notes are considered Level 2 financial instruments, as their values are measured by using observable inputs, other than quoted prices in active markets.

NOTE 9 Leases

Substantially all of the Company's operating lease right-of-use assets and operating lease liabilities represent real estate leases for office space used to conduct the Company's business that expire on various dates through 2041. Leases generally contain renewal options and escalation clauses based upon increases in the lessors' operating expenses and other charges. The Company anticipates that most of these leases will be renewed or replaced upon expiration, although not necessarily for the same amount of space.

The balances and classification of operating lease right-of-use assets and operating lease liabilities within the Condensed Consolidated Balance Sheets is as follows:

<i>(in millions)</i>		September 30, 2025	December 31, 2024

NOTE 10 Supplemental Disclosures of Cash Flow Information and Non-Cash Financing and Investing Activities

During the nine months ended September 30, 2025, the Company had an impact of \$66 million from foreign exchange rate changes on cash, cash equivalents and restricted cash inclusive of fiduciary cash reported on its Condensed Consolidated Statements of Cash Flows due to the change in currency exchange rates.

Cash paid during the period for interest and income taxes are summarized as follows:

<i>(in millions)</i>	Nine months ended September 30,	
	2025	2024
Cash paid during the period for:		
Interest	\$ 144	\$ 162
Income taxes, net of refunds	\$ 319	\$ 289

During 2024, the Company accrued for and deferred approximately \$90 million related to certain federal income tax payments due to Hurricanes Debby and Milton tax relief. These deferrals of income tax payments were paid by the deadline of May 1, 2025.

During the nine months ended September 30, 2024, the Company paid \$91 million related to certain federal income tax payments that were deferred from 2023 due to Hurricane Idalia tax relief and paid approximately \$30 million of tax payments associated with the gain on disposal of certain third-party claims administration and adjusting services businesses sold in the fourth quarter of 2023.

Significant non-cash investing and financing activities are summarized as follows:

NOTE 11 Legal and Regulatory Proceedings

The Company is involved in numerous pending or threatened proceedings by or against Brown & Brown, Inc. or one or more of its subsidiaries that arise in the ordinary course of business. The damages that may be claimed against the Company in these various proceedings are in some cases substantial, including in certain instances claims for punitive or extraordinary damages. Some of these claims and lawsuits have been resolved; others are in the process of being resolved and others are still in the investigation or discovery phase. The Company will continue to respond appropriately to these claims and lawsuits and vigorously protect its interests.

The Company continues to assess certain litigation and claims to determine the amounts, if any, that management believes will be paid as a result of such claims and litigation and, therefore, additional losses may be accrued and paid in the future, which could adversely impact the Company's operating results, cash flows and overall liquidity. The Company maintains third-party insurance policies to provide coverage for certain legal claims, in an effort to mitigate its overall exposure to unanticipated claims or adverse decisions. However, as (i) one or more of the Company's insurance carriers could take the position that portions of these claims are not covered by the Company's insurance, (ii) to the extent that payments are made to resolve claims and lawsuits, applicable insurance policy limits are eroded and (iii) the claims and lawsuits relating to these matters are continuing to develop, it is possible that future results of operations or cash flows for any particular quarterly or annual period could be materially affected by unfavorable resolutions of these matters. Based upon the AM Best Company ratings of these third-party insurers and other factors, management does not believe there is a substantial risk of an insurer's material non-performance related to any current insured claims.

On the basis of current information, the availability of insurance and legal advice, in management's opinion, the Company is not currently involved in any legal proceedings which, individually or in the aggregate, would have a material adverse effect on its financial condition, operations and/or cash flows.

NOTE 12 Segment Information

In conjunction with the acquisition of Accession in the third quarter of 2025, the Company aligned its business from three to two segments. As a result of the segment reorganization, the Company consolidated its Programs and Wholesale Brokerage segments into a new Specialty Distribution segment. As a result, beginning in the third quarter of 2025, the Company reports its financial results in the following two reportable segments: (i) the Retail segment, which provides a broad range of insurance products and services to commercial, public and quasi-public entities, and to professional and individual customers, and non-insurance risk-mitigating products through our F&I businesses; and (ii) the Specialty Distributions segment, which consists of our programs, wholesale brokerage and specialty businesses. Our programs businesses which act as MGUs, provide targeted products and services designated for specific industries, trade groups, governmental entities and market niches, which are delivered to the insured directly, to affinity groups, through wholesale brokers or through a global network of independent agents, including Brown & Brown retail agents. Our wholesale brokerage businesses underwrite and place excess and surplus commercial and personal lines insurance, typically for specialized or hard-to-place types of risks, primarily through a global network of independent agents and brokers, including Brown & Brown retail agents. Our specialty business offers solutions across affinity and administrative services, captives, reinsurance, travel/accident, warranty, and life & health.

The balances presented for periods prior to September 30, 2025 have been recast to align with the two-segment structure.

Brown & Brown conducts most of its operations within the U.S., International retail operations include businesses based in Bermuda, Canada, Cayman Islands, the Netherlands, Republic of Ireland and the United Kingdom; specialty distribution operations are in Belgium, Canada, France, Germany, Hong Kong, Italy, Malaysia, the Netherlands, Singapore, United Arab Emirates and the United Kingdom. These international operations earned \$196 million and \$155 million of total revenues for the three months ended September 30, 2025 and 2024, respectively. These international operations earned \$638 million and \$486 million of total revenues for the nine months ended September 30, 2025 and 2024, respectively.

The Company's chief operating decision maker ("CODM"), the president and chief executive officer, regularly receives segment information on total revenue, organic revenue growth, income before income taxes and earnings before interest, income taxes, depreciation, amortization and change in estimated acquisition earn-out payables ("EBITDAC"). The metrics are used to review operating trends, to perform analytical comparisons between periods and to monitor budget to actual variances. The Company's CODM does not use segment assets to make resource allocation decisions; and therefore, segment assets have not been presented.

Summarized financial information concerning the Company's reportable segments is shown in the following tables.

NOTE 13 Insurance Company Subsidiary Operations

The Company operates a write-your-own flood insurance carrier, Wright National Flood Insurance Company. WNFIC's underwriting business consists of policies written pursuant to the NFIP, the program administered by FEMA to which premiums and underwriting exposure are ceded, and excess flood policies, which are fully reinsured in the private market. Congressional authorization for the NFIP is periodically evaluated and may be subject to potential government shutdowns. The Company sells excess flood policies, which are 100% ceded to a highly rated reinsurance carrier.

The Company operates and/or participates in various ancillary insurance operations, including (1) reinsurance companies and stand-alone captives that assume underwriting risk; (2) series captive insurance companies (SCICs); (3) protected cell companies; (4) segregated account companies; (5) a quota share captive and (6) an excess of loss layer captive. These respective entities are utilized for the purpose of managing SCICs, facilitating additional underwriting capacity, generating incremental revenues and/or participating in underwriting results. The Company acquired the SCICs through our acquisition of Accession. We consolidated the SCICs after determining they qualify as Variable Interest Entities (VIEs), and the Company is the primary beneficiary. The SCICs are required to follow the regulatory requirements of their respective domiciliary governments; and, the Company has no other restrictions over the use of the assets or liabilities of the SCICs.

The Company purchases reinsurance from other insurance companies to limit total exposure. In addition, the Company cedes insurance risk to other insurance companies and the U.S. government as permitted by the NFIP. The Company's SCICs are created for clients to insure their risks and manage the costs of their insurance programs. In these arrangements, the Company acts as a fronting insurer and enters into reinsurance treaties, under which the Company has ceded all of the liabilities to client-owned captive cells through cross collateralization between the cells. The premiums and underwriting exposure related to the Company's SCIC insurance operations are fully ceded to the client-owned captive cells such that the Company's SCIC operations have no underwriting risk on a net written basis.

The quota share captive participates in risk sharing on policies placed by certain of our MGU businesses that currently underwrite property insurance for earthquake and wind exposed properties. A portion of written premiums are ceded to reinsurance companies, limiting, but not fully eliminating the Company's exposure to underwriting losses.

The excess of loss layer captive participates in risk sharing on policies placed by one of our MGU businesses that underwrites risks associated with personal property, excluding flood, primarily in the southeastern United States with one layer of per risk excess reinsurance and three layers of catastrophe per occurrence reinsurance. All four layers have limited reinstatements; and therefore, the layers have capped, maximum aggregate limits.

The effects of reinsurance on premiums written and earned are as follows:

<i>(in millions)</i>	Nine months ended September 30, 2025

WNFIC

All premiums written by the Company under NFIP are 100% ceded to FEMA, for which WNFIC received a 29.1% gross expense allowance from January 1, 2025 through September 30, 2025. For the same period, the Company ceded \$835 million of written premiums to FEMA for NFIP policies and \$3 million to highly rated carriers for excess flood policies.

As of September 30, 2025, the Condensed Consolidated Balance Sheets contained reinsurance recoverable of \$247 million and prepaid reinsurance premiums of \$584 million, which are related to the WNFIC business. For flood policies, there was no change in the balance in the reserve for losses and loss adjustment expense net of reinsurance recoverable during the period January 1, 2025 through September 30, 2025, as the Company's direct premiums written were 100% ceded to two reinsurers. The gross balance of the reserve for losses and loss adjustment expense for the WNFIC, excluding related reinsurance recoverable, as of September 30, 2025 was \$247 million. These balances primarily relate to hurricane claims activity in 2024.

WNFIC maintains capital in excess of the minimum statutory amount of \$8 million as required by regulatory authorities. The statutory capital and surplus of WNFIC was \$37 million at September 30, 2025 and \$44 million as of December 31, 2024. For the period from January 1, 2025 through September 30, 2025, WNFIC generated minimal statutory net loss. For the period from January 1, 2024 through December 31,

2024, WNFIC generated statutory net income of \$9 million. The maximum amount of ordinary dividends that WNFIC can pay during a rolling twelve-month period is limited to the greater of 10% of statutory adjusted capital and surplus or 100% of adjusted net income. On June 27, 2025, WNFIC paid an ordinary dividend of \$9 million. The dividend was declared and approved by the WNFIC Board of Directors on May 30, 2025. The maximum dividend payout that may be made in 2025 without prior approval is \$9 million.

Captives

In December 2021, the initial funding to capitalize the quota share captive was \$6 million. This capital in addition to earnings of \$26 million through September 30, 2025 is considered at risk for loss.

The excess of loss layer captive was renewed in June 2025 with underlying reinsurance treaties effective from June 1, 2025 through May 31, 2026. This captive's maximum aggregate annual underwriting exposure is \$2 million per occurrence, up to \$4 million.

As of September 30, 2025, the Condensed Consolidated Balance Sheet contained the following balances related to the Captives: deferred acquisition costs of \$17 million, prepaid reinsurance premiums of \$206 million, reinsurance recoverable of \$356 million, reinsurance payable of \$215 million, the reserve for losses and loss adjustment expense, excluding related reinsurance recoverable, of \$373 million and unearned premiums of \$303.

NOTE 14 Shareholders' Equity

Under the authorization from the Company's Board of Directors, shares may be purchased from time to time, at the Company's discretion and subject to the availability of stock, market conditions, the trading price of the stock, alternative uses for capital, the Company's financial performance and other potential factors. These purchases may be carried out through open market purchases, block trades, accelerated share repurchase plans of up to \$100 million each (unless otherwise approved by the Board of Directors), negotiated private transactions or pursuant to any trading plan that may be adopted in accordance with Rule 10b5-1 of the Securities Exchange Act of 1934.

The Company has outstanding approval to purchase up to approximately \$249 million, in the aggregate, of the Company's outstanding common stock.

During the first quarter, the Company paid a dividend of \$0.15 per share, which was approved by the Board of Directors on January 22, 2025 and paid on February 12, 2025 for a total of \$43 million. During the second quarter, the Company paid a dividend of \$0.15 per share, which was approved by the Board of Directors on April 28, 2025 and paid on May 21, 2025 for a total of \$43 million. During the third quarter, the Company paid a dividend of \$0.15 per share, which was approved by the Board of Directors on July 23, 2025 and paid on August 20, 2025 for a total of \$50 million.

On June 10, 2025, the Company entered into an Underwriting Agreement (the "Common Stock Underwriting Agreement") with J.P. Morgan Securities LLC and BofA Securities, Inc., as representatives of the several underwriters named therein (collectively, the "Common Stock Underwriters"), with respect to the offer and sale by the Company of 43,137,254 shares of the Company's common stock, par value \$0.10 (the "Common Stock") at a per share offering price of \$102.00 for an aggregate purchase price for net proceeds of \$4,315 million after underwriting discounts and fees and expenses. The Company closed the offering of the shares of Common Stock on June 12, 2025. The Company used the net proceeds of the offerings of the shares of Common Stock and the Notes, together with cash on hand, to fund the cash consideration payable under the Merger Agreement and to pay fees and expenses associated with the foregoing.

As part of the consideration for the Accession acquisition, the Company issued approximately \$1,045 million of its common stock (par value \$0.10 per share) to the selling shareholders (the "Common Stock Consideration"), based on the market value of the shares at closing. The number of shares issued was calculated using the Company's closing stock price of \$110.57 per share on June 6, 2025.

On October 22, 2025, the Board of Directors approved a quarterly cash dividend of \$0.165 per share to be paid on November 12, 2025.

On October 22, 2025, subsequent to the end of the quarter, our Board of Directors approved an additional \$1,251 million increase to our existing share repurchase authorization. This action brings our total remaining repurchase capacity to approximately \$1,500 million of the Company's outstanding common stock.

ITEM 2 — Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion updates the Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2024, and the two discussions should be read together.

GENERAL

Company Overview — Third Quarter of 2025

The following discussion should be read in conjunction with our Condensed Consolidated Financial Statements and the related Notes to those Financial Statements included elsewhere in this Quarterly Report on Form 10-Q, which are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). In addition, please see “Information Regarding Non-GAAP Financial Measures” below concerning important information on non-GAAP financial measures contained in our discussion and analysis.

We are a diversified insurance agency, wholesale brokerage, insurance programs, specialty insurance business and service organization headquartered in Daytona Beach, Florida. As an insurance intermediary, our principal sources of revenue are commissions paid by insurance companies and, to a lesser extent, fees paid directly by customers. Commission revenues generally represent a percentage of the premium paid by an insured and are affected by fluctuations in both premium rate levels charged by insurance companies and the insureds’ underlying “insurable exposure units,” which are units that insurance companies use to measure or express insurance exposed to risk (such as property values, sales or payroll levels) to determine what premium to charge the insured. Insurance companies establish these premium rates based upon many factors, including loss experience, risk profile and reinsurance rates paid by such insurance companies, none of which we control. We also participate in capitalized captive insurance facilities for the purpose of having additional capacity to place coverage, drive additional revenues and to participate in underwriting results. The limit the Company’s exposure to claims expenses through reinsurance or by only participating in certain tranches of the underwriting. We also operate registered insurance companies to support our national flood insurance program and to support our cross-collateralized segregated captive cell businesses. We do not participate in earnings of the collateralized segregated captive cells.

The volume of business from new and existing customers, fluctuations in insurable exposure units, changes in premium rate levels, changes in general economic and competitive conditions, a reduction of purchased limits, or the occurrence of catastrophic weather events all affect our revenues. For example, higher levels of inflation, an increase in the value of insurable exposure units or a general decline in economic activity, could increase or decrease the value of insurable exposure units. Conversely, increasing costs of litigation settlements and awards could cause some customers to seek higher levels of insurance coverage. Historically, we have grown our revenues as a result of our focus on new business, customer retention and acquisitions. We foster a strong, decentralized sales and service culture, which enables responsiveness to changing business conditions and drives accountability for results.

The term “core commissions and fees” excludes profit-sharing contingent commissions, and therefore, it represents the revenues earned directly from specific insurance policies sold, and specific fee-based services rendered. The net change in core commissions and fees reflects the aggregate changes attributable to: (i) net new and lost accounts; (ii) net changes in our customers’ exposure units, deductibles or insured limits; (iii) net changes in insurance premium rates or the commission rate paid to us by our carrier partners; (iv) the net change in fees paid to us by our customers and (v) any businesses acquired or disposed of.

We also earn profit-sharing contingent commissions, which are commissions based primarily on underwriting results, but in select situations may reflect additional considerations for volume, growth and/or retention. These commissions, which are included in our commissions and fees in the Consolidated Statements of Income, are estimated and accrued throughout the year based on actual premiums written and knowledge, to the extent it is available, of losses incurred. Payments are primarily received in the first and second quarters of each subsequent year, based upon the aforementioned considerations for the prior year(s), but may differ from the amount estimated and accrued due to the lack of complete visibility regarding loss information until they are received. Over the last three years, profit-sharing contingent commissions have averaged approximately 3.6% of commissions and fee revenues.

Fee revenues primarily relate to services other than securing coverage for our customers, and for fees negotiated in lieu of commissions. Fee revenues are generated by: (i) our Specialty Distribution segment, which earn fees primarily for the issuance of insurance policies on behalf of insurance carriers and (ii) our Retail segment in our large-account customer base, where we primarily earn fees for securing insurance for our customers, in our F&I businesses where we earn fees for assisting our customers with creating and selling warranty and service risk management programs and fees for Medicare Set-aside services, Social Security disability services and Medicare benefits advocacy services. Fee revenues as a percentage of our total commissions and fees, represented 21.1% in 2024 and 23.9% in 2023.

For the three months ended September 30, 2025, our total commissions and fees growth rate was 34.2%, and our consolidated Organic Revenue growth rate was 3.5%.

Historically, investment and other income has consisted primarily of interest earnings on operating cash and where permitted, on premiums collected and held in a fiduciary capacity before being remitted to insurance companies. Our policy as it relates to the Company’s capital is to invest available funds in high-quality, short-term money-market funds and fixed income investment securities. Investment income also includes gains and losses realized from the sale of investments. Other income primarily reflects other miscellaneous revenues.

Income before income taxes for the three months ended September 30, 2025 decreased from the third quarter of 2024 by \$6 million or 1.9%, due to Acquisition/Integration Costs associated with the acquisition of Accession and increases in the change in estimated acquisition earnout payables, partially offset by Organic Revenue growth, leveraging our expense base, net new business and income from acquisitions completed in the past twelve months.

Information Regarding Non-GAAP Financial Measures

In the discussion and analysis of our results of operations, in addition to reporting financial results in accordance with generally accepted accounting principles (“GAAP”), we provide references to the following non-GAAP financial measures as defined in Regulation G of the SEC rules: Organic Revenue, EBITDAC, EBITDAC Margin, EBITDAC - Adjusted and EBITDAC Margin - Adjusted. We present these measures because we believe such information is of interest to the investment community. We believe they provide additional meaningful methods to evaluate the Company’s operating performance from period to period on a basis that may not be otherwise apparent on a GAAP basis due to the impact of certain items that have a high degree of variability, that we believe are not indicative of ongoing performance and that are not easily comparable from period to period. This non-GAAP financial information should be considered in addition to, not in lieu of, the Company’s consolidated income statements and balance sheets as of the relevant date. Consistent with Regulation G, a description of such information is provided below and tabular reconciliations of this supplemental non-GAAP financial information to our most comparable GAAP information are contained in this Quarterly Report on Form 10-Q under “Results of Operations - Segment Information.”

We view Organic Revenue and Organic Revenue growth as important indicators when assessing and evaluating our performance on a consolidated basis and for each of our two segments, because they allow us to determine a comparable, but non-GAAP, measurement of revenue growth that is associated with the revenue sources that were a part of our business in both the current and prior year and that are expected to continue in the future. We also view EBITDAC, EBITDAC - Adjusted, EBITDAC Margin and EBITDAC Margin - Adjusted as important indicators when assessing and evaluating our performance, as they present more comparable measurements of our operating margins in a meaningful and consistent manner. As disclosed in our most recent proxy statement, we use Organic Revenue growth, and EBITDAC Margin - Adjusted as key performance metrics for our short-term and long-term incentive compensation plans for executive officers and other key employees.

Non-GAAP Revenue Measures

- **Organic Revenue** is our core commissions and fees less: (i) the core commissions and fees earned for the first twelve months by newly acquired operations; (ii) divested business (core commissions and fees generated from offices, books of business or niches sold or terminated during the comparable period) and (iii) Foreign Currency Translation (as defined below). The term “core commissions and fees” excludes profit-sharing contingent commissions; and therefore, represents the revenues earned directly from specific insurance policies sold and specific fee-based services rendered. Organic Revenue can be expressed as a dollar amount or a percentage rate when describing Organic Revenue growth.

Non-GAAP Earnings Measures

- **EBITDAC** is defined as income before interest, income taxes, depreciation, amortization and the change in estimated acquisition earn-out payables.
- **EBITDAC Margin** is defined as EBITDAC divided by total revenues.
- **EBITDAC - Adjusted** is defined as EBITDAC, excluding (i) (gain)/loss on disposal (as defined below), (ii) Acquisition/Integration Costs (as defined below) and (iii) mark-to-market of escrow liability (as defined below).
- **EBITDAC Margin - Adjusted** is defined as EBITDAC - Adjusted divided by total revenues.

Definitions Related to Certain Components of Non-GAAP Measures

- **“Acquisition/Integration Costs”** means the acquisition and integration costs (e.g., costs associated with regulatory filings; costs for third-party professional services, including legal, accounting, consulting, financial advisory and due diligence; costs and fees associated with entry into the bridge financing commitment; costs of integrating or streamlining processes and information technology systems, including data migration and system integration; costs associated with optimizing vendor agreements and leased office space, including exit costs related to location combinations; and employment-related costs, including severance payments, costs associated with the transition of certain legacy compensation programs, retention-related compensation expenses, and incentive payments) arising out of our acquisition of Accession and acquisitions previously completed by Accession, which are not considered to be normal, recurring or part of ongoing operations.

- **“Foreign Currency Translation”** means the period-over period impact of foreign currency translation, which is calculated by applying current-year foreign exchange rates to the various functional currencies in our business to our reporting currency of U.S. dollars for the same period in the prior year.
- **“(Gain)/loss on disposal”** is a caption on our consolidated statements of income which reflects net proceeds received as compared to the net book value related to sales of books of business and other divestiture transactions.
- **“Mark-to-market of escrow liability”** is a caption on our consolidated statements of income which reflects the non-cash change in the fair value associated with certain shares of the Company’s common stock held in escrow. The change is driven by fluctuations in our stock price between the beginning of the quarter and the end of the quarter. These escrowed shares represent a portion of the merger consideration payable in connection with our acquisition of Accession. The escrowed shares secure certain indemnification obligations of the Accession equity holders related to businesses that are in run-off or discontinued.

Our industry peers may provide similar supplemental non-GAAP information with respect to one or more of these measures, although they may not use the same or comparable terminology and may not make identical adjustments and; therefore, comparability may be limited. This supplemental non-GAAP financial information should be considered in addition to, and not in lieu of, the Company's Condensed Consolidated Financial Statements.

Acquisitions

Part of our business strategy is to attract high-quality insurance intermediaries and service organizations to join our operations. From 1993 through the third quarter of 2025, we acquired 713 insurance intermediary operations.

Critical Accounting Policies

We have had no changes to our Critical Accounting Policies as described in our most recent Form 10-K for the year ended December 31, 2024. We believe that of our significant accounting and reporting policies, the more critical policies include our accounting for revenue recognition, business combinations and purchase price allocations, intangible asset impairments, non-cash stock-based compensation and reserves for litigation. In particular, the accounting for these areas is subject to uncertainty, because it requires significant use of judgment to be made by management. Different assumptions in the application of these policies could result in material changes in our consolidated financial position or consolidated results of operations. Refer to Note 1 in the “Notes to Consolidated Financial Statements” in our Annual Report on Form 10-K for the year ended December 31, 2024 for details regarding our critical and significant accounting policies.

RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024

The following discussion and analysis regarding results of operations and liquidity and capital resources should be considered in conjunction with the accompanying Condensed Consolidated Financial Statements and related Notes.

Financial information relating to our condensed consolidated financial results is as follows:

Commissions and Fees

Commissions and fees, including profit-sharing contingent commissions and earned premiums, for the three months ended September 30, 2025 increased \$395 million to \$1,550 million, or 34.2%, over the same period in 2024. Core commissions and fees revenue for the third quarter of 2025 increased \$349 million or 30.9%, composed of: (i) approximately \$40 million of net new and renewal business, which reflects an Organic Revenue growth rate of 3.5%; (ii) \$307 million from acquisitions that had no comparable revenues in the same period of 2024; (iii) an increase from the impact of Foreign Currency Translation of \$5 million and an offsetting decrease from (iv) \$3 million related to commissions and fees revenue from businesses or books of business divested in the preceding twelve months. Profit-sharing contingent commissions for the third quarter of 2025 increased by \$46 million, or 170%, compared to the same period in 2024. This increase was driven primarily by (i) improved underwriting results, growth in premium volume and qualifying for certain profit-sharing contingent commissions that we did not qualify for in the prior year and (ii) recent acquisitions.

Commissions and fees, including profit-sharing contingent commissions and earned premiums, for the nine months ended September 30, 2025, increased \$638 million to \$4,183 million, or 18.0%, over the same period in 2024. Core commissions and fees revenue for the nine months ended September 30, 2025 increased \$587 million or 17.1%, composed of: (i) approximately \$157 million of net new and renewal business, which reflects an Organic Revenue growth rate of 4.6%; (ii) \$429 million from acquisitions that had no comparable revenues in the same period of 2024; (iii) an increase from the impact of Foreign Currency Translation of \$11 million and (iv) an offsetting decrease of \$10 million related to commissions and fees revenue from businesses or books of business divested in the preceding twelve months. Profit-sharing contingent commissions for the nine months ended September 30, 2025 increased by \$51 million, or 46.4%, compared to the same period in 2024. This increase was driven primarily by (i) improved underwriting results, increased premium volume and qualifying for certain profit-sharing contingent commissions that we did not qualify for in the prior year and (ii) recent acquisitions.

Investment and Other Income

Investment and other income for the three months ended September 30, 2025 increased \$25 million from the same period in 2024. Investment income for the nine months ended September 30, 2025 increased \$35 million, from the same period in 2024. The increase was driven by approximately \$42 million of interest income earned from the proceeds of the Company's follow-on common stock offering and senior notes issuance in June 2025, which was held in preparation for the closing of the acquisition of Accession. The increase year over year was partially offset by lower average interest rates as compared to the prior year.

Employee Compensation and Benefits

Employee compensation and benefits expense as a percentage of total revenues was 49.4% for the three months ended September 30, 2025 as compared to 51.2% for the three months ended September 30, 2024, an increase of 30.6%, or \$186 million. This increase included \$164 million of compensation costs related to acquisitions that had no comparable costs in the same period of 2024. Therefore, employee compensation and benefits expense attributable to those offices that existed in the same time periods of 2025 and 2024 increased by \$22 million. This underlying employee compensation and benefits expense increase was primarily related to: (i) an increase in staff costs attributable to new hires; (ii) the increased cost of health insurance; and (iii) an increase in producer compensation associated with revenue growth.

Employee compensation and benefits expense as a percentage of total revenues was 49.3% for the nine months ended September 30, 2025 as compared to 50.3% for the nine months ended September 30, 2024, and increased 16.1%, or \$293 million. This increase included \$219 million of compensation costs related to acquisitions that had no comparable costs in the same period of 2024. Therefore, employee compensation and benefits expense attributable to those offices that existed in the same time periods of 2025 and 2024 increased by \$74 million. This underlying employee compensation and benefits expense increase was primarily related to: (i) an increase in staff costs attributable to new hires; (ii) the increased cost of health insurance; and (iii) an increase in producer compensation associated with revenue growth.

Other Operating Expenses

Other operating expenses represented 17.2% of total revenues for the third quarter of 2025, as compared to 13.9% for the third quarter of 2024. Other operating expenses for the third quarter of 2025 increased \$111 million, or 67.3%, from the same period of 2024. This change includes: (i) \$68 million of other operating expenses related to acquisitions that had no comparable costs in the same period of 2024; (ii) \$50 million of Acquisition/Integration Costs associated with the acquisition of Accession, \$9 million of which is included in the \$60 million related to acquisitions that had no comparable costs in the same period of 2024; and (iii) increased information technology-related costs.

Other operating expenses represented 15.6% of total revenues for the nine months ended September 30, 2025, as compared to 13.8% for the nine months ended September 30, 2024. Other operating expenses for the first nine months of 2025 increased \$173 million, or 34.7%, from the same period of 2024. This change includes: (i) \$85 million of other operating expenses related to acquisitions that had no comparable costs in the same period of 2024; (ii) \$87 million of Acquisition/Integration Costs associated with the acquisition of Accession, \$9 million of which is included in the \$60 million related to acquisitions that had no comparable costs in the same period of 2024; and (iii) increased information technology-related costs.

(Gain)/Loss on Disposal

Gain on disposal for the third quarter of 2025 decreased \$1 million from the third quarter of 2024. Gain on disposal for the nine months ended September 30, 2025 decreased \$31 million from the nine months ended September 30, 2024. These decreases were primarily attributable to the prior year finalization of the gain associated with selling certain third-party claims administration and adjusting services businesses in the fourth quarter of 2023. Although we do not routinely sell businesses or customer accounts, we periodically sell an office or a book of business (one or more customer accounts) that we believe does not produce reasonable margins or demonstrate a potential for adequate growth, or because doing so is in the Company's best interest.

Amortization

Amortization expense for the third quarter of 2025 increased \$48 million, or 106.7%, compared to the third quarter of 2024. Amortization expense for the nine months ended September 30, 2025 increased \$65 million, or 49.6%, compared to the nine months ended September 30, 2024. This change reflects the amortization of new intangibles from businesses acquired within the past twelve months, net of certain intangible assets becoming fully amortized or written off in the (Gain)/Loss on disposal.

Depreciation

Depreciation expense for the third quarter of 2025 increased \$3 million, or 27.3%, compared to the third quarter of 2024. Depreciation expense for the nine months ended September 30, 2025 increased \$4 million, or 12.1%, compared to the nine months ended September 30, 2024. Changes in depreciation expense reflect net additions of fixed assets resulting from businesses acquired in the past twelve months and the addition of fixed assets resulting from business initiatives, partially offset by the impact of fixed assets that became fully depreciated or written off in the gain or loss on disposal.

Interest Expense

Interest expense for the third quarter of 2025 increased \$50 million, or 100.0%, compared to the third quarter of 2024. Interest expense for the nine months ended September 30, 2025 increased \$50 million, or 34.0%, compared to the first nine months of 2024. The increase is due to higher debt balances resulting from debt issuance second quarter of 2025 to fund the acquisition of Accession, which was partially offset by decreases in the floating rate benchmark used on our adjustable-rate debt.

Change in Estimated Acquisition Earn-Out Payables

Accounting Standards Codification (“ASC”) Topic 805 - Business Combinations is the authoritative guidance requiring an acquirer to recognize 100% of the fair value of acquired assets, including goodwill, and assumed liabilities (with only limited exceptions) upon initially obtaining control of an acquired entity. Additionally, the fair value of contingent consideration arrangements (such as earn-out purchase price arrangements) at the acquisition date must be included in the purchase price consideration. The recorded purchase price for acquisitions includes an estimation of the fair value of liabilities associated with any potential earn-out provisions. Subsequent changes in these earn-out obligations are required to be recorded in the Condensed Consolidated Statements of Income when incurred or reasonably estimated. Estimations of potential earn-out obligations are typically based upon future earnings of the acquired operations or entities, usually for periods ranging from one to three years.

The net charge or credit to the Consolidated Statements of Income for the period is the combination of the net change in the estimated acquisition earn-out payables liability, and the accretion of the present value discount on those liabilities.

As of September 30, 2025 and 2024, the fair values of the estimated acquisition earn-out payables were re-evaluated based upon projected operating results and measured at fair value on a recurring basis using unobservable inputs (Level 3) as defined in ASC 820-*Fair Value Measurement*. The resulting net changes, as well as the interest expense accretion on the estimated acquisition earn-out payables were as follows:

(in millions)	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Change in fair value of estimated acquisition earn-out payables	\$ 10	\$ (9)	\$ 14	\$ (15)
Interest expense accretion	1	1	4	6
Net change in earnings from estimated acquisition earn-out payables	<u>\$ 11</u>	<u>\$ (8)</u>	<u>\$ 18</u>	<u>\$ (9)</u>

For the three months and nine months ended September 30, 2025, the fair value of estimated earn-out payables was re-evaluated and resulted in increases of \$10 million and \$14 million, respectively, which resulted in charges to the Condensed Consolidated Statements of Income.

As of September 30, 2025, estimated acquisition earn-out payables totaled \$575 million, of which \$262 million was recorded as accounts payable and \$313 million was recorded as other non-current liabilities.

Income Taxes

The effective tax rate on income from operations for the three months ended September 30, 2025 and 2024 was 26.4% and 24.6%, respectively. The effective tax rate on income from operations for the nine months ended September 30, 2025 and 2024 was 23.9% and 23.1%, respectively. The increase for the three months ended September 30, 2025 was primarily driven by non-deductibility of certain costs associated with the acquisition of Accession. The increase for the nine months ended September 30, 2025 was driven primarily by the lower tax benefit associated with vesting of restricted stock awards and restricted stock units in 2025 as compared to 2024 as well as the non-deductibility of certain costs associated with the acquisition of Accession.

RESULTS OF OPERATIONS — SEGMENT INFORMATION

As discussed in Note 12 to the Condensed Consolidated Financial Statements, we operate two reportable segments: Retail and Specialty Distribution. On a segmented basis, changes in amortization, depreciation and interest expenses generally result from activity associated with acquisitions. Likewise, other income consists primarily of miscellaneous income and therefore can fluctuate between comparable periods. As such, management primarily focuses on Organic Revenue growth, the growth in profit-sharing contingent commissions and EBITDAC Margin when evaluating the operational efficiency of a segment.

The reconciliation of commissions and fees included in the Condensed Consolidated Statements of Income to Organic Revenue, a non-GAAP financial measure, for the three months ended September 30, 2025 and 2024, and the growth rates for Organic Revenue for the three months ended September 30, 2025, including by segment, are as follows:

NMF = Not a meaningful figure

The Retail segment's total revenues for the three months ended September 30, 2025 increased 37.8%, or \$242 million, as compared to the same period in 2024, to \$883 million. The \$228 million increase in core commissions and fees revenue was driven by: (i) approximately \$210 million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2024; (ii) an increase of \$17 million related to net new and renewal business; (iii) an increase from the impact of Foreign Currency Translation of \$4 million and (iv) an offsetting decrease of \$3 million related to commissions and fees recorded in 2024 from businesses since divested. Profit-sharing contingent commissions for the third quarter of 2025 increased \$10 million at \$18 million, as compared to the same period in 2024. This increase was due to acquisitions completed within the last twelve months. The Retail segment's total commissions and fees increased by 37.2%, and the Organic Revenue growth rate was 2.7% for the third quarter of 2025. The Organic Revenue growth rate was driven by net new business written during the preceding twelve months and growth on renewals of existing customers. Growth for renewal business was moderated by slowing rate increases, rate decreases for certain lines of coverage, certain adjustments to incentive commissions and a regulatory change for one of our UK businesses.

Income before income taxes for the three months ended September 30, 2025 increased 36.7%, or \$44 million, as compared to the same period in 2024, to \$164 million. The primary factors driving this increase were: (i) a decrease in intercompany interest expense and (ii) the profit associated with the net increase in revenue as described above, partially offset by (iii) an increase in estimated acquisition earn-out payables, and (iv) an increase in amortization expense.

EBITDAC - Adjusted for the three months ended September 30, 2025 increased 45.3%, or \$77 million, as compared to the same period in 2024, to \$247 million. EBITDAC Margin - Adjusted for the three months ended September 30, 2025 increased to 28.0% from 26.5% in the same period in 2024. The change in EBITDAC Margin - Adjusted was primarily driven by: (i) leveraging our expense base; and (ii) the timing of revenues and profit associated with certain recent acquisitions.

The Retail segment's total revenues for the nine months ended September 30, 2025 increased 18.8%, or \$394 million, as compared to the same period in 2024, to \$2,487 million. The \$379 million increase in core commissions and fees revenue was driven by: (i) approximately \$311

million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2024; (ii) an increase of \$68 million related to net new and renewal business; (iii) an increase from the impact of Foreign Currency Translation of \$9 million; and (iv) an offsetting decrease of \$10 million related to commissions and fees recorded in 2024 from businesses since divested. Profit-sharing contingent commissions for the nine months of 2025 increased 33.3%, or \$10 million, as compared to the same period in 2024, to \$40 million. This increase was due to acquisitions completed within the last twelve months. The Retail segment's total commissions and fees increased by 18.6%, and the Organic Revenue growth rate was 3.3% for the first nine months of 2025. The Organic Revenue growth rate was driven by net new business written during the preceding twelve months and growth on renewals of existing customers. Renewal business was impacted by timing of certain nonrecurring revenue items, slowing rate increases, rate decreases for certain lines of coverage, certain adjustments to incentive commissions and a regulatory change for one of our UK businesses.

Income before income taxes for the nine months ended September 30, 2025 increased 17.8%, or \$87 million, as compared to the same period in 2024, to \$575 million. The primary factors driving this increase were: (i) a decrease in intercompany interest expense; and (ii) the profit associated with the net increase in revenue as described above, partially offset by (iii) an increase in estimated acquisition earn-out payables, and (iv) amortization and depreciation expense growing faster than total revenues.

EBITDAC - Adjusted for the nine months ended September 30, 2025 increased 21.1%, or \$135 million, as compared to the same period in 2024, to \$776 million. EBITDAC Margin - Adjusted for the nine months ended September 30, 2025 increased to 31.2% from 30.6% in the same period in 2024. The increase in EBITDAC Margin - Adjusted was primarily driven by: (i) the net increase in revenue as described above; (ii) the timing of revenues associated with recent acquisitions; and (iii) leveraging our expense base.

Specialty Distribution Segment

The Specialty Distribution Segment is composed of our programs business, known as Arrowhead Programs; our wholesale brokerage business, known as Bridge Specialty Group; and our new specialty program business, known as Arrowhead Specialty. Approximately 81% of the Specialty Distribution segment's commissions and fees revenue is commission based.

Arrowhead Programs manages a diverse portfolio of professional liability, personal lines, commercial lines, public entity and specialty programs supported by over 100 well-capitalized insurance carriers. In most cases, the insurance carriers that support these programs have delegated underwriting and, in many instances, claims-handling authority. These programs are generally distributed through a global network of independent agents and brokers, including Brown & Brown retail agents, and offer targeted products and services designed for businesses, individuals, specific industries, trade groups, professions, public entities, municipalities, and niche markets. This division also operates our write-your-own flood insurance carrier, WNFIC and participates in a quota share captive and an excess of loss layer captive. WNFIC's underwriting business consists of policies written on behalf of and fully ceded to the NFIP, as well as excess flood policies, which are fully reinsured in the private market.

Bridge Specialty Group, offers global wholesale brokerage and delegated binding/underwriting capabilities across multiple lines, to independent agents and brokers, including Brown & Brown retail agents. Our teams across the globe provide deep industry knowledge and expertise, for placements across multiple lines of coverage based on access to admitted, excess and surplus lines carriers, as well as the Lloyd's markets in the United Kingdom.

Arrowhead Specialty is composed of our newly acquired specialty businesses from One80 Intermediaries, a segment of Accession, which offer solutions across affinity organizations, administrative services, captives, reinsurance, travel/accident, warranty, and life & health.

Arrowhead Programs' and Arrowhead Specialty's captives businesses provide additional underwriting capacity that enables growth in core commissions and fees and allow us to participate in underwriting results with limited exposure to claims expenses. The Company has traditionally participated in underwriting profits through profit-sharing contingent commissions. These captives limit the Company's exposure to claims expenses either through reinsurance or by participating in limited tranches of the underwriting risk.

The Specialty Distributions segment's total revenues for the three months ended September 30, 2025 increased 30.0%, or \$157 million, as compared to the same period in 2024, to \$681 million. The \$121 million increase in core commissions and fees revenue was driven by: (i) approximately \$97 million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2024; and (ii) approximately \$23 million of net new business, renewal business, and fee revenues; and (iii) an increase from the impact of Foreign Currency Translation of \$1 million. Profit-sharing contingent commissions for the third quarter of 2025 increased approximately \$36 million as compared to the third quarter of 2024. This increase is a result of favorable loss ratios, increased premiums, and to a lesser extent acquisitions completed in the past twelve months.

The Specialty Distribution segment's total commissions and fees increased by 30.4%, and the Organic Revenue growth rate was 4.6% for the three months ended September 30, 2025. The Organic Revenue growth was driven by net new and retained business, as well as exposure unit expansion, but was partially offset by declining rates on catastrophe ("CAT") property.

Income before income taxes for the three months ended September 30, 2025 increased 21.4%, or \$45 million, as compared to the same period in 2024, to \$255 million due to: (i) the growth of EBITDAC – Adjusted described below, partially offset by: (ii) increased amortization expense; and (iii) an increase in estimated acquisition earn-out payables.

EBITDAC - Adjusted for the three months ended September 30, 2025 increased 26.7%, or \$63 million, from the same period in 2024, to \$299 million. EBITDAC Margin - Adjusted for the three months ended September 30, 2025 decreased to 43.9% from 45.0% in the same period in 2024. EBITDAC Margin - Adjusted decreased due to: (i) businesses acquired within the last twelve months that have lower margins than our average segment margins; partially offset by: (ii) increase in profit-sharing contingent commissions; (iii) Organic Revenue growth; and (iv) leveraging our expense base.

The Specialty Distribution segment's total revenues for the nine months ended September 30, 2025 increased 16.8%, or \$249 million, as compared to the same period in 2024, to \$1,731 million. The \$209 million increase in core commissions and fees revenue was driven by: (i)

approximately \$117 million related to the core commissions and fees revenue from acquisitions that had no comparable revenues in the same period of 2024; (ii) approximately \$90 million of net new business, renewal business and fee revenues; and (iii) an increase from the impact of Foreign Currency Translation of \$2 million. Profit-sharing contingent commissions for the nine months ended September 30, 2024 increased approximately \$41 million, or by 51.3%, as compared to the same period in 2024. This increase is a result of favorable loss ratios, increased premiums, and to a lesser extent acquisitions completed in the past twelve months.

The Specialty Distribution segment's total commissions and fees increased by 17.1%, and the Organic Revenue growth rate was 6.5%, for the nine months ended September 30, 2025. The Organic Revenue growth was driven by hurricane claims revenue, net new and retained business, and exposure unit expansion, but was partially offset by declining rates on CAT property.

Income before income taxes for the nine months ended September 30, 2025 increased 12.0%, or \$70 million to \$654 million, from the same period in 2024. Income before income taxes increased due to: (i) the drivers of EBITDAC - Adjusted described below; (ii) decreased interest expense; partially offset by: (iii) gain on disposal recorded in the prior year; (iv) increased amortization expense; and (v) an increase in estimated acquisition earn-out payables.

EBITDAC - Adjusted for the nine months ended September 30, 2025 increased 18.6%, or \$119 million to \$759 million, as compared to the same period in 2024. EBITDAC Margin - Adjusted for the nine months ended September 30, 2025 increased to 43.8% from 43.2% in the same period in 2024. EBITDAC Margin - Adjusted increased due to: (i) the increase in profit-sharing contingent commissions; (ii) Organic Revenue growth; and (iii) leveraging our expense base; while being partially offset by (iv) businesses acquired within the last twelve months that have lower margins than our average segment margins.

Other

As discussed in Note 12 of the Notes to Condensed Consolidated Financial Statements, the "Other" line items in the Segment Information table includes any revenue and expenses not allocated to reportable segments, and corporate-related items, including the intercompany interest expense charges to reporting segments.

LIQUIDITY AND CAPITAL RESOURCES

The Company seeks to maintain a conservative balance sheet and strong liquidity profile. Our capital requirements to operate as an insurance intermediary are low, and we have been able to grow and invest in our business through a combination of cash that has been generated from operations, the disciplined use of debt and the issuance of equity as part of the purchase price consideration to acquire certain businesses. We have the ability to utilize our Revolving Credit Facility under the Second Amended and Restated Credit Agreement (the "Second Amended and Restated Credit Agreement"), which as of September 30, 2025 provided up to \$600 million in available cash. We believe that we have access to additional funds, if needed, through the capital markets or private placements to obtain further debt financing under the current market conditions. The Company believes that its existing cash, cash equivalents, short-term investment portfolio and funds generated from operations, together with the funds available under the Revolving Credit Facility and the Loan Agreement, dated March 31, 2022, which provided term loan capacity of \$800 million (the "Loan Agreement"), will be sufficient to satisfy its normal liquidity needs, including principal payments on our long-term debt, for the next twelve months and in the long term.

The Revolving Credit Facility contains an expansion option for up to an additional \$500 million of borrowing capacity, subject to the approval of participating lenders. Additionally, the Company may, subject to satisfaction of certain conditions, including receipt of additional term loan commitments by new or existing lenders, increase either Term Loan Commitment under the existing Loan Agreement or the term loans issued thereunder or issue new tranches of term loans in an aggregate additional amount of up to \$400 million. Including the expansion options under all existing credit agreements, the Company has access to up to \$1,500 million of incremental borrowing capacity as of September 30, 2025.

Cash and cash equivalents totaled \$1,190 million at September 30, 2025 reflecting an increase of \$515 million from the \$675 million balance at December 31, 2024. This increase is due to the cash generated in quarter and cash assumed in connection with the acquisition of Accession.

Operating Cash Flows

Our operating cash flows are primarily derived from the net income generated during the period adjusted for non-cash expenses, which include depreciation, amortization, changes in estimated earnout payables, non-cash stock-based compensation and deferred income taxes while excluding gains and losses on sales/disposals of investments, businesses, fixed assets and customer accounts, payments on acquisition earn-outs in excess of original estimated payables and changes in working capital which relate primarily to the timing of payments of accrued liabilities and receipts of receivables from commissions and fees related to our revenues. Our ratio of current assets to current liabilities was 1.18 and 1.10 for September 30, 2025 and December 31, 2024, respectively.

Cash flows generated from operating activities totaled \$1,006 million and \$813 million for the nine months ended September 30, 2025 and 2024, respectively, representing an increase of \$193 million. Operating cash flows generated in 2025 included \$799 million from net income before non-controlling interests with \$359 million of non-cash adjustments, offset by \$152 million from changes in working capital.

The growth in cash from operations is primarily due to recent acquisitions and continued improvements in our working capital over the same period in 2024.

Investing Cash Flows

Cash flows used for investing activities were \$7,701 million and \$119 million for the nine months ended September 30, 2025 and 2024, respectively, an increase of \$7,582 million.

Acquisitions

During the nine months ended September 30, 2025, the Company completed 37 acquisitions (including book purchases) and paid \$7,659 million, net of cash, and cash and cash equivalents held in a fiduciary capacity acquired, most notably for the purchase of Accession Risk Management Group for \$7,461 million, Tim Parkman, Inc. for \$69 million and NBS Insurance Agency for \$43 million. Net cash paid for acquisitions increased \$7,541 million in the nine months ended September 30, 2025, up from \$118 million during the same period in 2024.

Dispositions

The Company received cash proceeds from the sale of businesses, fixed assets and customer accounts totaling \$10 million during the nine months ended September 30, 2025, compared to \$60 million proceeds received in the same period in 2024. The decrease is attributed to the proceeds received during the second quarter of 2024 of \$57 million from the settlement of two of the contingent payments related to the sale of certain third-party claims administration and adjusting services businesses in the fourth quarter of 2023.

Capital Expenditures

Capital expenditures amounted to \$48 million and \$62 million in the nine months ended September 30, 2025 and 2024, respectively, and included purchases of furniture and fixtures, leasehold improvements related to office moves and hardware and software purchases related to information technology investments.

Financing Cash Flows

Net cash flows provided by financing activities totaled \$7,851 million and net use of \$341 million in the nine months ended September 30, 2025 and 2024, respectively, an increase of \$8,192 million.

Fiduciary Receivables and Liabilities

Fiduciary cash represents funds in the Company's possession collected from customers to be remitted to insurance companies and funds from insurance companies to be distributed to insureds for the settlement of claims or refunds. The net change in fiduciary cash is represented by the net change in fiduciary liabilities and fiduciary receivables and is presented as cash flows from financing activities in the statement of cash flows. Financing cash flows reflect a decrease of \$145 million and an increase of \$83 million in the nine months ended September 30, 2025 and 2024, respectively, related to fiduciary receivables and liabilities.

Acquisition Earn-outs

Payments on acquisition earn-outs related to the original acquisition date estimates totaled \$77 million and \$100 million in the nine months ended September 30, 2025 and 2024, respectively.

Dividends

During the nine months ended September 30, 2025 and 2024, the Company paid cash dividends of \$137 million and \$111 million, respectively, an increase of \$26 million, or 23.4%. On October 22, 2025, the Board of Directors approved a quarterly cash dividend of \$0.165 per share to be paid on November 19, 2025.

Debt

Net cash proceeds from long term debt totaled \$3,899 million in the nine months ended September 30, 2025, compared to net cash use of \$206 million in the same period of 2024.

Total debt at September 30, 2025 was \$7,728 million net of unamortized discount and debt issuance costs, which was an increase of \$3,904 million compared to December 31, 2024. The increase includes the issuance of \$4,192 million of senior notes net of the unamortized debt discounts and the amortization of discounted debt related to our various unsecured senior notes and debt issuance cost amortization of \$5

million, offset by the addition of deferred debt issuance costs of \$37 million, \$206 million of payments on outstanding term loan balances and net payments on the Revolving Credit Facility of \$50 million.

During the nine months ended September 30, 2025, the Company repaid \$19 million of principal related to the Second Amended and Restated Credit Agreement term loan through the quarterly scheduled principal payments. The Second Amended and Restated Credit Agreement term loan had an outstanding balance of \$175 million as of September 30, 2025. The Company's next scheduled principal payment is due in December 2025 and is equal to \$6 million.

During the nine months ended September 30, 2025, the Company repaid \$37 million of principal related to the Term Loans issued under the Term A-2 Loan Commitment ("Term A-2 Loans") through quarterly scheduled principal payments. The Term A-2 Loans had an outstanding balance of \$375 million as of September 30, 2025. The Company's next scheduled principal payment is \$13 million due in December 2025.

During the nine months ended September 30, 2025, the Company repaid the outstanding balance on the Term A-1 Loan Commitment (the "Term A-1 Loan Commitment") of \$150 million related to the Loan Agreement, in accordance with the terms of the Loan Agreement using proceeds from the Revolving Credit Facility in connection with the Second Amended and Restated Credit Agreement.

On June 11, 2025, the Company entered into an Underwriting Agreement (the "Notes Underwriting Agreement") with BofA Securities, Inc. and J.P. Morgan Securities LLC, as representatives of the several underwriters named therein (collectively, the "Notes Underwriters"), with respect to the offer and sale by the Company of \$400 million principal amount of its 4.600% Senior Notes due 2026 (the "2026 Notes"), \$500 million principal amount of its 4.700% Senior Notes due 2028 (the "2028 Notes"), \$800 million principal amount of its 4.900% Senior Notes due 2030 (the "2030 Notes"), \$500 million principal amount of its 5.250% Senior Notes due 2032 (the "2032 Notes"), \$1,000 million principal amount of its 5.550% Senior Notes due 2035 (the "2035 Notes") and \$1,000 million principal amount of its 6.250% Senior Notes due 2055 (the "2055 Notes" and, together with the 2026 Notes, the 2028 Notes, the 2030 Notes, the 2032 Notes, and the 2035 Notes, the "Notes"). The Notes Underwriting Agreement contains customary representations, warranties and covenants of the Company, conditions to closing, termination provisions and other terms and conditions customary in agreements of this type. The Notes Underwriting Agreement also contains customary indemnification and contribution rights and obligations of the Company and the Notes Underwriters. The Company used the net proceeds of the offering of the Notes, together with the proceeds from the offering of shares of common stock and cash on hand, to fund the cash consideration payable under the Merger Agreement, and to pay fees and expenses associated with the foregoing. As of September 30, 2025, the aggregate outstanding balance of these notes was \$4,200 million exclusive of the associated discount balance.

During the second quarter, the Company repaid the outstanding balance on the Revolving Credit Facility of \$400 million with cash on hand. During the third quarter, the Company drew \$300 million on the Revolving Credit Facility in connection with the closing of Accession Risk Management Group and repaying \$100 million during the same quarter. There is an outstanding balance of \$200 million on the Revolving Credit Facility as of September 30, 2025.

Common Stock

On June 10, 2025, the Company entered into an Underwriting Agreement (the "Common Stock Underwriting Agreement") with J.P. Morgan Securities LLC and BofA Securities, Inc., as representatives of the several underwriters named therein (collectively, the "Common Stock Underwriters"), with respect to the offer and sale by the Company of 43,137,254 shares of the Company's common stock, par value \$0.10 (the "Common Stock") at a per share offering price of \$102.00 for an aggregate purchase price for net proceeds of \$4,315 million after underwriting discounts and fees and expenses. The Company closed the offering of the shares of Common Stock on June 12, 2025. The Company used the net proceeds of the offerings of the shares of Common Stock and the Notes, together with cash on hand, to fund the cash consideration payable under the previously announced acquisition of Accession and to pay fees and expenses associated with the foregoing.

As part of the consideration for the Accession acquisition, the Company issued approximately \$1,017 million of its common stock (par value \$0.10 per share) to the selling shareholders (the "Common Stock Consideration"), based on the market value of the shares at closing. The number of shares issued was calculated using the Company's closing stock price of \$110.57 per share on June 6, 2025.

Contractual Cash Obligations

As of September 30, 2025, our contractual cash obligations were as follows:

(in millions)	Payments Due by Period				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Long-term debt	\$ 7,800	\$ 75	\$ 1,575	\$ 1,150	\$ 5,000
Other liabilities ⁽¹⁾	285	13	26	21	225
Operating leases	339	71	120	71	77
Interest obligations	4,283	386	665	574	2,658
Maximum future acquisition contingent payments ⁽²⁾	784	377	407	—	—
Total contractual cash obligations ⁽³⁾	\$ 13,491	\$ 922	\$ 2,793	\$ 1,816	\$ 7,960

- (1) Does not include the escrow liability which is included within “Other Long-Term Liabilities” issued in connection with our acquisition of Accession. The liability reflects the fair value of shares and cash held in escrow to secure certain indemnification obligations of the Accession equityholders related to businesses that are in run-off or discontinued. Once all claims related to certain indemnification matters described in the Merger Agreement are resolved, the remaining amount in the escrow account will be released to the equityholders. The Company believes this escrow, plus other available funds, is sufficient to cover any potential costs associated with those specified matters subject to indemnification under the Merger Agreement. The fair value of the escrow liability is remeasured at each reporting date, with changes recognized in earnings. The timing and amount of any future settlement remains subject to the achievement of contractual milestones and may vary from the amounts disclosed. The value as of September 30, 2025, was \$676 million.
- (2) Includes \$575 million of current and non-current estimated acquisition earn-out payables. Earn-out payables for acquisitions not denominated in U.S. dollars are measured at the current foreign exchange rate. Certain acquisition agreements include provisions with no maximum potential earn-out amount. The amount recorded for these acquisitions as of September 30, 2025 is \$431 million.
- (3) Does not include approximately \$56 million of current liability for a dividend of \$0.1650 per share approved by the Board of Directors on October 22, 2025 to be paid on November 12, 2025.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates, foreign exchange rates and equity prices. We are exposed to market risk through our investments, revolving credit line, term loan agreements and international operations.

Our invested assets are held primarily as cash and cash equivalents, restricted cash, available-for-sale marketable debt securities, non-marketable debt securities, certificates of deposit, U.S. Treasury securities, and professionally managed short-term duration fixed income funds. These investments are subject to interest rate risk. The fair value of our invested assets at September 30, 2025 and December 31, 2024 approximated their respective carrying values due to their short-term duration and therefore, such market risk is not considered to be material.

We do not actively invest or trade in equity securities. In addition, we generally dispose of any significant equity securities received in conjunction with an acquisition shortly after the acquisition date.

As of September 30, 2025, we had \$550 million outstanding under the Second Amended and Restated Credit Agreement and the Loan Agreement tied to the Secured Overnight Financing Rate (“SOFR”). These agreements bear interest on a floating basis and are therefore subject to changes in the associated interest expense. The effect of an immediate hypothetical 10% change in interest rates would not have a material effect on our Condensed Consolidated Financial Statements.

The majority of our international operations do not have material transactions in currencies other than their functional currency which would expose the Company to transactional currency rate risk. We are subject to translational exchange rate risk having businesses operating outside of the U.S. in the following functional currencies, British pounds, Canadian dollar, and euros. Based upon our foreign currency rate exposure as of September 30, 2025, an immediate 10% hypothetical change of foreign currency exchange rates would not have a material effect on our Condensed Consolidated Financial Statements.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation (the “Evaluation”) required by Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), under the supervision and with the participation of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15 and 15d-15 under the Exchange Act (“Disclosure Controls”) as of September 30, 2025. Based upon the Evaluation, our CEO and CFO concluded that the design and operation of our Disclosure Controls were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our senior management, including our CEO and CFO, to allow timely decisions regarding required disclosures.

Changes in Internal Controls

There has not been any change in our internal control over financial reporting identified in connection with the Evaluation that occurred during the quarter ended September 30, 2025, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations of Internal Control Over Financial Reporting

Our management, including our CEO and CFO, does not expect that our Disclosure Controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

CEO and CFO Certifications

Exhibits 31.1 and 31.2 are the Certifications of the CEO and the CFO, respectively. The Certifications are supplied in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 (the “Section 302 Certifications”). This Item 4 of Part I of this Quarterly Report on Form 10-Q contains the information concerning the evaluation referred to in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.

PART II

ITEM 1. Legal Proceedings

In Item 3 of Part I of the Company's Annual Report on Form 10-K for its fiscal year ended December 31, 2024, certain information concerning litigation claims arising in the ordinary course of business was disclosed. Such information was current as of the date of filing. During the Company's fiscal quarter ended September 30, 2025, no new legal proceedings, or material developments with respect to existing legal proceedings, occurred which require disclosure in this Quarterly Report on Form 10-Q.

ITEM 1A. Risk Factors

Other than as described below, there were no material changes in the risk factors previously disclosed in Item 1A, "Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2024.

WE MAY FAIL TO REALIZE ALL OF THE ANTICIPATED BENEFITS OF THE TRANSACTION (INCLUDING USE OF ACCESSION'S DEFERRED TAX ASSETS), AND THE TRANSACTION OR THOSE BENEFITS MAY TAKE LONGER TO REALIZE THAN EXPECTED.

We believe that there are significant benefits and synergies that may be realized through the Transaction. However, the efforts to realize these benefits and synergies will be a complex process and may disrupt existing operations if not implemented in a timely and efficient manner. The full benefits of the Transaction, including the anticipated synergies and growth opportunities, may not be realized as expected or may not be achieved within the anticipated time frame, or at all. In addition, our use post-closing of any of Accession's deferred tax assets may be subject to limitation. Failure to achieve the anticipated benefits of the Transaction could adversely affect our results of operations or cash flows, decrease or delay any anticipated accretive effect of the Transaction and negatively impact the price of our common stock and the trading prices of our senior notes.

FINANCING THE TRANSACTION RESULTED IN AN INCREASE IN OUR INDEBTEDNESS, WHICH COULD ADVERSELY AFFECT US, INCLUDING BY DECREASING OUR BUSINESS FLEXIBILITY AND INCREASING OUR INTEREST EXPENSE.

As of September 30, 2025, our total debt was \$7,728 million. We financed the purchase price of the Transaction with the net proceeds of certain securities offerings and cash on hand. These increases in our indebtedness may, among other things, reduce our flexibility to respond to changing business and economic conditions or to fund capital expenditures or working capital needs. In addition, the amount of cash required to pay interest on our indebtedness, and thus the demands on our cash resources, will materially increase as a result of the Transaction.

WE HAVE MADE CERTAIN ASSUMPTIONS RELATING TO THE TRANSACTION WHICH MAY PROVE TO BE MATERIALLY INACCURATE.

We have made certain assumptions relating to the Transaction, which assumptions involve significant judgement and may not reflect the full range of uncertainties and unpredictable outcomes inherent in the Transaction and may be materially inaccurate. These assumptions relate to numerous matters, including:

- projections of future revenue and our earnings per share;
- projections of future expenses and expense allocation relating to the Transaction and Accession;
- our ability to realize the expected benefits of the Transaction;
- unknown or contingent liabilities associated with the Transaction or Accession;
- our ability to maintain, develop and deepen relationships with employees, including key brokers, and customers associated with Accession;
- the amount of goodwill and intangibles that will result from the Transaction;
- other purchase accounting adjustments that we may record in our financial statements in connection with the Transaction;
- acquisition and integration costs, including restructuring charges and transaction costs;
- the impact of the financing of the Transaction on our operating results or financial condition; and
- other financial and strategic risks of the Transaction.

WE ARE SUBJECT TO RISKS RELATED TO ACCESSION'S BUSINESS, INCLUDING UNDERWRITING RISK IN CONNECTION WITH CERTAIN CAPTIVE INSURANCE COMPANIES.

We are subject to risks related to Accession's business and assumed its insurance policies and other obligations.

Accession's ownership of one or more protected cells in certain captive insurance companies subjects us to underwriting risk through such ownership and/or participation and may also subject us to certain liabilities and expenses, including those subject to the indemnification provisions of the Merger Agreement. Accession currently owns, and may continue to own, from time to time, one or more protected cells in

certain captive insurance companies for the purpose of facilitating additional underwriting capacity for certain of its customers. While Accession’s underwriting risk through any such captive insurance company would generally be limited (absent any regulatory requirement for the contribution of additional capital or contractual obligation to fund any underwriting losses in excess of contributed capital), we may be subject to claims expenses associated with any losses from these customers or programs to the extent not covered by any reinsurance. Our results of operations may be negatively impacted if any such captive insurance company incurs claims expenses.

Relatedly, we cannot predict the ultimate outcome of the litigation pending against Accession’s subsidiary, Oxford Risk Management Group LLC, with respect to the 2024 restructuring of the domicile of certain financial guarantee and final judgment preservation policies for segregated captive cells (the “FG Policies”), including remedies, damage awards or adverse results in such litigation, and any similar proceedings could have a material adverse effect on us. Our results of operations would be negatively impacted if the costs of the claims relating to the FG Policies exceed the value of the cash and stock held in the indemnity escrow fund pursuant to the terms of the Merger Agreement.

In addition, Accession has an advisory services business that assists certain clients with the establishment of captive insurance companies, for their own purposes, which leverage the benefits of Section 831(b) of the Internal Revenue Code of 1986, as amended, and which are subject to audit and oversight from the Internal Revenue Service (“IRS”). The IRS has conducted investigations, and may be conducting investigations, of certain peers of Accession that also provide similar services, with respect to whether or not such third parties are acting as a tax shelter promoter in connection with those operations. If the IRS were to disallow 831(b) elections, modify its guidance around 831(b) elections, or otherwise investigate our business and conclude that we are not in compliance with IRS regulations, whether or not merited, those events could harm our business, results of operations and financial condition.

Furthermore, where our businesses overlap, any risks we face may be intensified due to the Transaction. This may exacerbate the risks we already undertake, as described in our 2024 10-K under “Item 1A. Risk Factors.”

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuances of Unregistered Securities

As partial consideration for the Transaction, on August 1, 2025, the Company issued approximately 11 million shares to the equityholders of RSC. The issuance was made in reliance upon the following exemptions of exclusions from the registration requirements of the Securities Act of 1933, as amended (the “Securities Act”): Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated under the Securities Act.

Issuer Purchases of Equity Securities

The following table provides information about our repurchase of shares of our common stock during the three months ended September 30, 2025:

	Total number of shares purchased ⁽¹⁾	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum value of shares that may yet be purchased under the plans or programs ⁽²⁾⁽³⁾
July 1, 2025 to July 31, 2025	—	\$ —	—	\$ 249
August 1, 2025 to August 31, 2025	15,378	93.92	—	249
September 1, 2025 to September 30, 2025	—	—	—	249
Total	15,378	\$ 95.30	—	\$ 249

(1) A total of (a) 8,431 shares reported in this column are attributable to shares withheld for taxes in connection with vesting of restricted stock awards and restricted stock units under our 2019 Stock Incentive Plan, and (b) 6,947 shares reported in this column were acquired by the Company in satisfaction of a legal settlement with a former employee of the Company.

(2) On July 18, 2014, the Board of Directors authorized the repurchase of up to \$200 million of the Company's shares of common stock, and on July 20, 2015, the Board of Directors authorized the repurchase of an additional \$400 million of the Company's shares of common stock. On May 1, 2019, the Board of Directors approved an additional repurchase authorization amount of \$373 million to bring the total available share repurchase authorization to approximately \$500 million. After completing these open market repurchases, the Company’s outstanding Board approved share repurchase authorization as of September 30, 2025 was approximately \$249 million. Between January 1, 2014 and September 30, 2025, the Company repurchased a total of approximately 20 million shares for an aggregate cost of approximately \$748 million.

(3) Dollar values stated in millions.

ITEM 5. Other Information

During the third quarter of 2025, none of the Company's officers or directors adopted or terminated any "Rule 10b5-1 trading arrangement" or any "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408 of Regulation S-K.
